PROJECT UPDATE

AUGUST 2015

MICROSURFACING BEGINS IN 3 WEEKS

As early as August 31, 2015, crews working on behalf of the Seattle Department of Transportation (SDOT) will begin microsurfacing on or near your street. You may see preparatory work in the area a few days prior. The map shows the specific timing of the work in your neighborhood. Please review this notice and contact me with any questions or concerns.

What to expect

- 2 to 3 days before the work begins, crews will place "No Parking" signs on streets and distribute confirmation notices with dates and instructions.
- Noise, tar-like odors and large equipment associated with microsurfacing may be noticeable.
- Streets will be closed for up to 8 hours. We encourage everyone to avoid the road surface during this time. When wet, the microsurfacing mixture is sticky and difficult to remove from clothing and pet fur.
- Emergency vehicles will be allowed through the work area at all times without any delay.

Actions for residents

- Cars must be relocated off the road and planting strip area prior to the start of work. On the day of microsurfacing, please remove all personal items from the road and park cars on a nearby block not being microsurfaced.
- If your regular garbage collection or recycling pick-up is scheduled on the same day as this work, please have your bins to the curb before 6 AM to ensure collection.
