NEW NORTH PRECINCT POLICE STATION

Comments

We welcome your comments on any aspect of the new North Precinct Police Station project or today's open house event. Please drop this sheet off with your comments at any table before leaving. Comments can also be sent via email to northprecinctproject@seattle.gov.

The vacating of the current precinct station provides the opportunity to daylight more of Thornton Creek and provide an urban park.
I strongly urge you follow that path to raze the facility and "return it to nature". When funding the project, do not neglect the cost of providing civic improvement to the previous site and focus all attention on gold-plating the new site.
Thank you,

Ken Meyer
