Source: U.S. Census Bureau, 2006-2010 American Community Survey (ACS)

Notes:
Estimates regarding languages spoken are for the population 5 years of age and older. The ACS is a sample survey. ACS estimates on languages spoken at the Census Tract level can carry very large margins of error. These maps should be used with caution.

This map is part of a series of maps and tables about race, ethnicity, and languages spoken that support outreach, translation and interpretation planning.
