## Cheasty Greenspace - Trail Pilot Project Inadvertent Discovery Plan

Cheasty Greenspace has seen limited disturbance in recent history and it is in an area with known pre-historic usage. To that end, the following requirements will be incorporated into construction documents for the Pedestrian and Mountain Bike Trail Pilot project to alert contractors and volunteers to the possible presence of archaeological/cultural resources.

If any remains, artifacts and/or other archaeological/cultural resources are uncovered during the excavation and/or grading phase of the project, all work must cease until the appropriate agencies listed below have been contacted and afforded an opportunity to assess the situation.

Muckleshoot Indian Tribe  
39015 172nd Ave SE  
Auburn, WA 98092  
Attn: Ms. Laura Murphy and Mr. Warren King George Ph. (253)-876-3272 and (253)-876-3269
