CONTENTS

CHAPTER 1: INTRODUCTION **1**
How Goods Movement and Deliveries Benefit Seattle 2
Why Does Seattle Need a Freight Plan? 6
The Planning Process 8
Public Engagement Process 9
Planning Context 10
Organization of the Seattle FMP 11

CHAPTER 2: GOODS MOVEMENT IN SEATTLE **13**
Population, Employment, and Economic Growth 14
Seattle's Freight Assets 22
Existing Freight Trends 34
Future Freight Trends 38
Conclusion 44

CHAPTER 3: POLICY FRAMEWORK **45**
Freight Master Plan Vision and Goals 46
Planning Context 47

CHAPTER 4: SEATTLE'S FREIGHT NETWORK **57**
Existing Freight Corridors 58
Developing a Comprehensive Freight Network 61
Identifying the Recommended Freight Network 62
The Recommended Freight Network 64

CHAPTER 5: DEVELOPING SOLUTIONS **67**
Assessing the Network 68
Freight Toolbox 77
Freight Strategies and Actions 80
Freight Project Concepts 89

CHAPTER 6: IMPLEMENTATION STRATEGY **95**
Prioritization Framework 96
Potential Funding Opportunities 98

LIST OF FIGURES

Figure 1-1: Seattle Supply Chain 5

Figure 2-1: Seattle's Urban Village Strategy..... 15
Figure 2-2: Seattle's MICs 17
Figure 2-3: U.S. Industry Use of Trucking and Warehousing Services 19
Figure 2-4: Seattle's Employment in Freight-Related Industries..... 19
Figure 2-5: Major Truck Streets 23
Figure 2-6: Over-Legal Network 25
Figure 2-7: Heavy Haul Network 26
Figure 2-8: Downtown Traffic Control Zone 27
Figure 2-9: Maritime Assets..... 30
Figure 2-10: Rail, Intermodal and Airport Facilities 33
Figure 2-11: Typical Vehicle Designs for AASHTO Classification..... 35
Figure 2-12: Average Daily Truck Volumes on Seattle's Roadway Network..... 36
Figure 2-13: Seattle Traffic Patterns by Time of Day 37
Figure 2-14: Freight Volumes, 2012 and 2040.... 42
Figure 2-15: Future Average Daily Truck Volumes on Seattle's Roadway Network..... 43
Figure 4-1: Seaport Highway Connectors 59
Figure 4-2: Seaport Intermodal Connectors..... 60
Figure 4-3: Seattle's Freight Network Designations and Criteria..... 62
Figure 4-4: Recommended Freight Network 65
Figure 5-1: High Truck Collision Locations..... 70
Figure 5-2: Seattle's Freight Mobility Constraints..... 72
Figure 5-3: Freight Bottleneck Classification 73
Figure 5-4: Freight Bottleneck 75
Figure 5-5: Freight Bottlenecks and Safety Locations..... 76
Figure 5-6: Designing for vs. Accommodating... 79

LIST OF TABLES

Table 4-1: Freight Network Minimum Daily Truck Volumes 63
Table 4-2: Freight Network Land Use Connection 63
Table 4-3: Freight Network Functional Purpose Designation 63
Table 4-4: Freight Network Roadway Classification 64
Table 5-1: Truck Collision—High Concentration Segments 69
Table 5-2: Bottlenecks on Seattle's Transportation Network 74
Table 5-3: Freight Toolbox Overview..... 77
Table 5-4: Strategies and Actions..... 81
Table 5-5: Project List..... 89
Table 6-1: Quantitative Evaluation Criteria 97
Table 6-2: Qualitative Evaluation Criteria..... 97
Table 6-3: Levy to Move Seattle Freight-Supportive Investments..... 99

APPENDICES

A. Freight Stakeholder Outreach
B. Existing and Future Truck Mobility and Access
C. Design Guidelines
D. Existing Conditions Report
E. Neighborhood Case Studies
F. Sustainable Freight Opportunities
G. Role of Freight in Seattle's Economy
