South Park Plaza – 8456 Dallas Ave. S

Construction started in February 2023 and will be complete by late summer/early fall 2024. The new oval park will offer the community a place to gather and celebrate with a new play area, a large plaza, seat walls, lighting, and landscaping. Many cultural elements have been embedded throughout with Lushootseed language etching of “river” walk, tiled surfaces, large colored letters spelling out South Park, Indigenous plantings, story rock and different cultural paving patterns.

South Park Community Center & Site Redevelopment – 8319 8th Ave. S

Construction will start in late March and run through 2025 with the community center and field opening in early 2026. This improvement project provides a new spray park, play area, picnic area, extended parking, dog off-leash area, a full-size multi-sport court, and an all-season synthetic lit turf field with a circular walking trail, in partnership with Seattle Academy (SAAS). This project will be concurrent with the South Park Community Center Stabilization Project which will address a number of major maintenance, accessibility, and program needs at South Park Community Center including a renovated kitchen and child care area.

During the closure of the community center, Seattle Parks & Recreation (SPR) will be offering limited off-site programming for the South Park Community. Please visit our webpage for the most updated program information www.seattle.gov/parks/all-community-centers/south-park-community-center.
