

# LIVING IN UPTOWN

## ISSUES FOR CONSIDERATION

- What key facilities or uses would encourage a more diverse residential population?
- Where are greater residential densities desirable?
- How do we bring in the “funk” or keep existing character by preserving & developing a diversity of use and scale of space?
- How do we ensure equity in and access for whomever wants to live in Uptown?
- How do we create housing that is affordable for young families?
- How do we compassionately serve a full spectrum of residents?
- How do we create a complex neighborhood and avoid a monolithic culture, type of building and income level?
