

Spruce Street Mini Park Artwork Project – Possible Artwork Locations

The following are identified as possible locations for artwork. The selected artist/artist team is not expected to create art at all three listed locations.

Location 1 – Northeast Stairway

Dimensions vary

Vertical spaces along the stairway are available for mural application.

Location 2 – Concrete Wall

Approximately 15 feet high x 50 feet wide

The large wall at the east end of the park is a space the community has expressed most interest in using as a mural space. Birch trees in front of the wall are diseased and Seattle Parks and Recreation may remove them from the park.

The wall is privately owned and could be removed in the future. The city of Seattle has no control of the current and future structures. The current owner supports the community effort to place a mural on the wall.

Location 3 – Play Area
Approximately 5 feet high x 40 feet wide
