The FAIR HOUSING LISTING SERVICE is newly formed to co-ordinate the activities of the participants who published the first list of over 50 homes for sale in September. These houses were in areas such as Bellevue, Mercer Island, the North and South Ends of Seattle, Ballard, Queen Anne, etc. at prices ranging from \$9,000 to over \$30,000. Many can be purchased on FHA terms.

In some cases the homes are available thru brokers; in others, the owners deal direct. The services of our committee are free. To contact owners and inspect houses, call any of the numbers listed below.

WANTED More homes for sale in all areas. We will publish revised lists monthly, and hope to have 100 homes by spring.

WANTED Names of home seekers who wish to locate outside the central district.

WANTED Organizations who will publicize these needs in their newsletters and encourage more listings.

If your home is for sale to any financially qualified buyer, or if you desire to see these homes already listed, phone any of the names below:-
