Dear key-stone cops,
Your Gestapo boys did a great job of yanking the gas mask off a T.V. reporter (with gas in the immediate area,) dragging a city councilman out of his car (while he was on the way to a WTO meeting,) kicking a protester in the groin while he lay helpless on the ground, firing rubber/plastic bullets and roughing up innocent NON-violent protesters - while allowing wide-spread criminal vandalism and looting by anarchists. Serq best!

Where did you get your badges - out of a cereal box?

I'm sure glad I don't live in Seattle. I wasn't at the WTO protest but thanks to cameras, I know - and the whole world knows - what happened!
