

Noise Complaints

When to call DPD

If major noise sources are driving you crazy, consult this card to determine where you should refer your complaints.

- Major noise generators are defined in Section 23.47.018 of the Seattle Land Use Code, and construction and mechanical noise are defined in Section 25.08 of the Seattle Municiple Code.
- Construction noise (e.g., equipment, vehicles, delivery trucks, etc.) complaints are handled by a DPD Noise Abatement Coordinator. To lodge a construction noise complaint, please call **(206) 684-7843** or **(206) 615-1760**.
- Report major mechanical noise (e.g. fans, vehicle repair and body shops, ventilators, air conditioning, lights and general manufacturing, etc...) to DPD's general complaint line by calling **(206) 615-0808**.

For more noise information, visit DPD's Noise Abatement Website:
www.seattle.gov/noise

Keep this card posted as a handy reference.

Please see reverse side for other noise generators and where to call...

Noise Complaints

DPD does NOT enforce the following noise generators:

- Barking dogs/noise emanating from animals: (206) 386-7387
- Horns or sirens
- Motor vehicle noise
- Musical instruments or amplified sound
- Human voices amplified or unamplified
- Sound from motor vehicle audio systems
- Noise created from officially sanctioned events in public places and parks
- Noise created by watercraft

For all the noise generators listed above, please contact the Seattle Police Department, at **(206) 625-5011**, for information on where to direct complaints.
