

# How can I connect to a Community Emergency Hub in my community?

- Look at the map with current Community Emergency hub sites [www.seattle.gov/emergency](http://www.seattle.gov/emergency)
- Identify the closest hub site to your home or workplace.
- Connect with the Seattle Office of Emergency Management by phone or e-mail.

**IT IS THAT SIMPLE!**

**Mission:** By prior planning, preparation, and practice, volunteer citizens will have the capacity to activate, as soon as possible after a disaster, a network of pre-located neighborhood Community Emergency Hub sites.

The Hub Sites will:

- 1) Collect information on local situations, needs, and resources.
- 2) Relay communications between Hub Sites and to and from the City of Seattle when possible, as well as be an information resource to residents.
- 3) Assist in the allocation of resources to needs.

**An adjunct responsibility, prior to a disaster, is to aid the City of Seattle in encouraging citizens to be individually and collectively prepared for a disaster.**

**Seattle Office of Emergency Management**
