Seattle City Light	PW#2015-081	Boundary Spillway Drainage Collection	\$100,000	Q4 2018	Josh Jackson 684-3828	Project location: 6535 Ravenna Ave NE, Seattle WA		X	X	X			X												
Seattle City Light	PW#2016-003	Energy Management Systems (EMS) Replacement Project	\$100,000	Q4 2018	Ruth Meraz-Caron 684-3094	EMS Replacement at System Operation Center (SOC) and North Service Center (NSC).					X					X									
Seattle City Light	PW#2016-005	Installation of Paint Booth	\$120,000	Q4 2018	Brett Richardson 684-3872	Project location: Seattle City Light- South Service Center/ 3613 4th Ave S Seattle, WA/ Building A. Project description: Install of new paint booth in building A		X								X									
Seattle City Light	PW#2016-010	Babcock Creek Vented Ford Project	\$660,000	Q4 2018	Nancy Chin 733-9402	This Project consists of removal and storage of existing temporary panel bridge, temporary diversion of ephemeral creek during construction, new precast and cast-in-place concrete vented ford structure, apron slabs, road regrading, and miscellaneous excavation and fill to accommodate new vented ford. Project location: MP 118.5 off Highway 20, Whatcom County, WA Lat 48° 40' 17" N, Long 121° 17' 15" W		X	X	X				X						X					
Seattle City Light	PW#2016-046	SCL Technical Metering Operations Building Remodel	\$250,000	Q4 2018	Brett Richardson 684-3872	The work consists of building out Room 135 to support a technical systems laboratory for SCL's advanced metering and smart grid programs. It will include adding additional security to the room's access doors, adding racking systems for components and switches, cable trays and structural support for cables, racks and infrastructure to support lab work. Additional transformers, electrical panels and power support will be included as will employee work stations.						X				X									
Seattle City Light	PW#2016-111	University Irrigation Project	\$35,000	Q4 2018	Arnel Valmonte 615-1438	Installation of irrigation system, controllers, and meters																			
Seattle City Light	PW#2016-149	Technical Training Center	\$9,000,000	Q4 2018	Ruth Meraz-Caron 684-3094	The scope of this project includes the construction of a new Technical Training Center for Seattle City Light. The main Training Building will be 13,250 gsf, designed to meet LEED Gold requirements in accordance with LEED Version 2009 NC Rating System. Adjacent to the Training Building will be a Training Yard of approximately 1.95 acres, which will house a variety of training mock-ups and site features. This includes Substation Training, Vault Training, Commercial and Residential mock-ups, Pole Climbing, Crane Training and a Civil Construction area. This contract utilizes a Community Workforce Agreement.				X	X			X		X			X						X
Seattle City Light	PW#2016-157	Cedar Falls Dam-Parapet Restoration	\$500,000	Q4 2018	Eddie Plana 684-3520	Built in 1914, the Masonry Dam at Cedar Falls is a historic structure. The structure was modified during the addition of the spillway gates. A tube rail was installed in place of the concrete parapet. This project eliminates the tube rail and replaces it with precast concrete panels that resemble the historic parapet elsewhere on the dam. Additionally, other safety concerns will also be addressed by adding tube rail, cable rail and gates, where the historic features do not provide adequate safety protection.		X			X				X										
Seattle City Light	PW#2017-005	SCL NSC Central Lot Redevelopment	\$998,393	Q4 2018	Ruth Meraz-Caron 684-3094	Redevelop a storage into secured employee and AMP car parking.		X	X	X				X							X				X
Seattle City Light	PW#2017-019	North Mountain Substation Security Improvements	\$310,309	Q4 2018	Brett Richardson 684-3872	Remove existing chain link fence and replace with SCL standard 10' no-climb mesh. Saw cut existing curb to accommodate new pole footings. Remove existing four vehicle gates and replace with SCL standard manual cantilever gates. Remove existing pedestrian gate and replace with SCL standard manual pedestrian gate.		X	X	X				X											X
Seattle City Light	PW#2017-075	Arroyo Beach Distribution and Streetlight Project	\$4,000,000	Q4 2018	Bikas Pande 684-0502	Project consists of installing underground electrical system including civil structures and electrical equipment in the Arroyo Beach area using open trench method.	X	X	X	X					X		X								

							Projected scopes of work listed below are informational estimates only and do not represent an exhaustive or final list.																	
Department	Project No.	Project Name	Engineer's Estimate	Target Bid Date	Contact Name	Project Description	Flagging, Traffic Control	Demolition, Remediation	Excavation, Grading, Site Work	Trucking	Carpentry	Finishes	Landscaping	Concrete	Concrete - Roadway	Electrical - Facilities	Electrical - Utilities	Mechanical, HVAC, Plumbing	Park Development	Shoring, Dewatering	Channelization, Signage, Wayfinding	Shoreline, Marine Construction	Fencing, Site Security	
Seattle City Light	PW#2018-021	Georgetown Steam Plant Access Drive Construction	\$2,000,000	Q4 2018	Timothy Croll 684-0806	Reconstruct public access to the Georgetown Steam Plant.		X	X				X	X	X		X	X				X		
Seattle City Light	PW#2018-022	Native Salmonid Conservation Facility	\$16,000,000	Q4 2018	Harry Rich 684-3546	Construct a fish hatchery and related support buildings/infrastructure. This project is located at on a 40-acre parcel of Washington Department of Fish and Wildlife (WDFW) property approximately 3.5 miles northwest of Usk, Washington 99180.			X	X	X			X		X	X							X
Seattle City Light	PW#2018-024	Brace Point Lid Conduit Installation	\$4,200,000	Q4 2018	Bikas Pande 684-0502	Installation of underground electrical system including vaults and street lighting.		X	X	X				X			X							
Seattle City Light	PW#2018-041	Environmental Learning Center Snow Guards	\$100,000	Q4 2018	Eddie Plana 684-3520	The project scope is to install owner-supplied snow guards on to buildings at the Environmental Learning Center. The contractor will lift these large steel snow guards on to the roofs of the buildings, near the eaves. Project location: Environmental Learning Center, Diablo Lake, WA																		
Seattle City Light	PW#2018-042	Diablo Lake New Fuel Dock	\$300,000	Q4 2018	Patricia Filimon 684-3058	This project will replace an existing fuel dock with a new fuel dock fitted with a fuel dispenser. The project will provide the following components: New fuel dock; New fuel dispenser and extend fuel and electrical lines; Replace existing rock bulkhead with new "open face" crib wall; New aluminum access gangway. Project location: Diablo Lake		X	X	X				X									X	
Seattle City Light	PW#2018-043	Broad Street Substation Inductor Project	\$3,500,000	Q4 2018	Bikas Pande 684-0502	To improve the reliability of the regional electric transmission grid in the Puget Sound Area and Northern Intertie (PSANI), which includes Pre-Design, Equipment specification, permitting, street vacation, community outreach, final design and installation of series inductor and other necessary equipment on the existing Massachusetts-Union-Broad (MA-US-BR) 115kV Transmission Line near Broad Street Substation.											X							
Seattle City Light	PW#2018-052	Boundary Building F Roof Replacement	\$375,000	Currently Under Review Prior to Advertisement	Eddie Plana 684-3520	This project proposes to replace the roof, roof insulation, damaged purlin(s), repair all building penetrations in Building F and strengthen roof joists. This project will also add snow guards and fall protection anchors. These improvements will eliminate the water leaks, any potential weather related damages and extend the life of the building.  Project location: Boundary Hydro Project, Near Metaline Falls, Pend Oreille County. 1198 Boundary Dam Access Rd., Metaline, WA 99152		X				X												
Seattle City Light	PW#2018-055U	SCL South Service Center Building B Roof Replacement	\$1,250,000	Q4 2018	Molly Rathe 684-3351	Removal and replacement of the roof on Building B at the City Light South Service Center.		X		X	X	X												
Seattle City Light	PW#2018-071ES	Resiliency Solar Microgrid	\$1,200,000	<a href="#">Bidding Now</a>	Bianca Smith 615-0883	Design, procure, install, commission and test a Microgrid at Miller Community Center in Seattle. This contract is funded in part by the Washington State Department of Commerce and is subject to requirements set forth by the Washington State Department of Commerce Agreement.
