

City of Seattle

Department of Finance and Administrative Services

March 31, 2015

The Honorable Nick Licata
Seattle City Hall
501 5th Ave.
Seattle, WA 98124

Councilmember Licata,

I am forwarding to the City Council an annual report of all real property under City ownership. The annual review supports strategic management of the City's real estate holdings. City needs change over time, so the annual review is intended to create opportunities to find the best municipal use of each property or put it back into the private sector. We update this information to avoid holding properties without an adopted municipal purpose.

Each January, FAS initiates the annual review process. City departments with jurisdiction over real property assure that all recent acquisitions and/or dispositions are accurately represented, and provide current information about each property's current use, and future use, if identified. Each property is classified based on its level of utilization -- from Fully Utilized Municipal Use to Surplus.

As of March 20, 2015, the City had ownership interests in 1,189 property management areas. (There are additional property management areas where the City may have only a leasehold interest, easement or other property right). Significant changes in 2014 include the purchase of the four-acre site of the new North Police Precinct (FAS) and Seattle Public Utilities sale of a 6.3-acre portion of the Kent Highlands Surplus Property. City Light acquired over 230 acres of wildlife mitigation land in Skagit County.

If you have questions about the report or about FAS's role in managing the City's real property assets, do not hesitate to contact me at 684-0503 or Chris Potter at 386-1576. We would be happy to brief the Finance & Budget Committee if this would be of interest.

Sincerely,

Fred Podesta, Director

Cc: City Councilmembers
