Department Overview

The Legislative Department includes the Seattle City Council, the City's representative electoral body composed of nine at-large, nonpartisan, elected councilmembers. Starting in 2016, the Council will be composed of two at-large members and seven members elected by geographic districts. In addition to the City Council, the Legislative Department has two other primary programs: the Central Staff and the Office of the City Clerk. Each program supports some aspect of the representative role of the City Council, and works with citizens and City departments to develop effective and responsive public policy.

The City Council establishes City laws, approves the City's annual operating and capital improvement budgets, provides oversight to the City's Executive departments, and creates policy for the City. Each councilmember has a staff of legislative assistants who help accomplish this work and who interact with and conduct outreach to the community.

Central Staff provides policy and budget analysis for councilmembers and their staffs as well as finance, budget, accounting, payroll and consultant contracting services to the Legislative Department, the Office of City Auditor and the Office of Professional Accountability Review Board.

The Office of the City Clerk supports and facilitates the City's legislative process; maintains and makes publicly accessible the Council's work product; coordinates public records disclosure requests; oversees and facilitates Citywide compliance with records retention laws; preserves and provides access to the City's official and historical records; maintains the City's Boards and Commissions registry; and provides information technology and operational support to the Legislative Department, Office of City Auditor and Office of Professional Accountability Review Board.

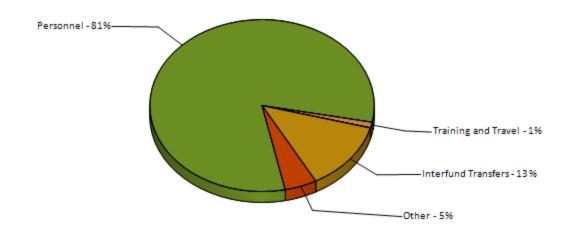

Communications and Human Resources teams are also a part of the Legislative Department. Communications staff assists councilmembers and the Council as a whole in communicating values, goals and issues to the public by providing marketing and public relations services, including website and social media management, strategic media relations and public affairs work. Human Resources staff provides services including employee relations, recruitment, organizational development and training.

Descriptions of Incremental Budget Changes

Baseline Changes

Citywide Adjustments for Standard Cost Changes - \$214,017

Citywide technical adjustments made in the "Baseline Phase" reflect changes due to inflation, central cost allocations, retirement, healthcare, workers' compensation, and unemployment costs. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Salary Changes and Position Reclassifications - \$300,397/(1.00) FTE

This change contains several components based on the Human Resources Department's studies of several job classifications and their work in the Legislative Department. A 2014 compensation study compared the salaries of Central Staff legislative analysts to those who perform the same body of work for elected officials in other cities and found that the City analysts were paid less. As a result, the proposed budget includes \$188,094 to bring salaries into line with those in other jurisdictions. In addition, the Human Resources Department reclassified four positions as a result of job studies. An administrative staff analyst position and a legislative information supervisor position were both reclassified to executive assistant, senior, and two council clerk positions were reclassified to executive assistant for a total add of \$112,303.

This change also removes 1.0 FTE position authority for an unfilled office/maintenance aide position.

Add Personnel Specialist Position - \$106,598/1.00 FTE

This change increases the Legislative Department budget and adds a 1.0 FTE personnel specialist.

Remove One-Time Funding - (\$145,000)

This item includes budget reductions for two one-time expenses that were added in the 2014 Adopted Budget. \$100,000 funded a consultant study of the City's options with respect to developing a parental-leave policy and \$45,000 funded the purchase of a software system to manage the process of legislation.

Proposed Changes

Implement Recommendations of Compensation Study - \$304,000

This item provides funding to increase pay for Councilmembers' legislative assistants, based on a compensation study conducted by the Human Resources Department which found that they were underpaid.

Add Senior Finance Analyst Position - \$111,697/1.00 FTE

This change adds a senior finance analyst, responsive to the current staff's workload issues. The position will also lead an effort to update and streamline existing systems and processes.

Increase Professional Development Budget for Central Staff - \$21,000

This change increases the professional development budget for Council Central Staff.

Add Funds for Software Licensing Costs - \$29,000

This change funds an annual license (\$24,000) for Citywide use of Legistar. Legistar is workflow-management software that supports a government's legislative process from initial department proposals through Council action. In addition, \$5,000 will fund customized reports.

Proposed Technical Changes

Citywide Training and Travel Reallocation - (\$7,374)

This adjustment makes small reductions to training and travel budget appropriations Citywide. The Budget reallocates these funds to a new Centralized Management and Leadership Development program in the Department of Human Resources. More information on the new training program can be found in the Department of Human Resources budget section.

Technical Adjustments - (\$31,274)

Changes reflected in this category include: adjustments within or between Budget Control Levels that align funding with spending requirements, corrections to baseline adjustments made during Executive phase, and other technical changes to staffing and program funding requirements. These changes are considered technical in nature because they do not significantly affect approved department service delivery or require new or additional policy decisions.

Final Citywide Adjustments for Standard Cost Changes - \$240,035

Citywide technical adjustments made in the "Proposed Phase" reflect changes due to inflation, central cost allocation, retirement, healthcare, workers' compensation, and unemployment costs. These adjustments reflect updates to preliminary cost assumptions established in the "Baseline Phase."
