

Mayor Murray's Find It, Fix It Community Walks

COMMUNITY INPUT SURVEY

The Find It, Fix It Community Walks are a series of Mayor-led walks that help to improve neighborhoods one block at a time. During these walks, neighbors, police, and City officials walk together to identify physical elements in the neighborhood that make it feel unsafe or poorly maintained.

This survey is used to identify community concerns such as **overgrown trees, graffiti, street light outages, litter, and damaged sidewalks**. Once the elements are identified, the City and community work together to fix the problems.

Neighborhood: ___North Beacon ___Little Brook ___Northgate ___First Hill ___Highland Park

List any issues you feel need to be addressed on the walk. Be as specific as possible:

| Concern: | Location: |
|----------|-----------|
| | |
| | |
| | |
| | |
| | |

Are you interested in joining the Community Walk Action Team to determine the walk route and topics that are addressed to the Mayor?

Yes! No

Contact Information (Optional):

Name: _____ Email: _____

Address: _____ Phone: _____

Information is used only to notify you of when and where the walk will take place and the status of your concerns.
