## Information Provided by Community Members

---

**Project Idea:** Requesting a crosswalk be installed connecting the existing curb ramps crossing Lakeside Ave S. at S. Lane St. A speed hump would be ideal to also address the speeding of drivers through this 25mph residential zone however simply painting the crosswalk would be a great first step!

**Need for Project:** Lakeside Ave S. is commonly used as a commuter route with drivers exceeding the 25-mph speed limit and rarely stopping for pedestrians. It is dangerous for pedestrians trying to cross the street to the bus stop.

**Community Benefit from Project:** Residents of Leschi, Seattle pedestrians, Visitors enjoying the many mini parks along Lake Washington.
