Review Date: August 7th, 2019

SDOT Project Summary

SDOT approves project

- ☐ Yes
- ☐ Yes, with revisions
- ☒ No

Comments: The number of pedestrians crossing at this location do not meet the thresholds for a marked crosswalk. In 2017, the W Nickerson Street paving project installed a curb bulb on the southwest corner. SDOT does not recommend any further improvements at this time.

There is an opportunity to partner with another program:

- ☐ Yes
- ☒ No

Partnering Program: N/A

Total Project Cost: $0

Solution and Comments:
This review has been completed for use in the 2019 Your Voice, Your Choice: Parks & Streets process.

Information Provided by Community Members

Project Idea: Add a crosswalk, preferably with flashing beacons, at the intersection of 6th Ave W and W Nickerson St.

Need for Project: Lots of university students or people using the bus stops on this corner have to jay walk because there is no cross walk near by. As a result, a lot of people jay walk at this corner, which is unsafe considering how fast the cars on Nickerson drive. This crosswalk is needed in order to ensure that pedestrians can safely cross the street at this corner, and so drivers are not confused when they see large groups of people crossing the street at an undesignated cross walk.

Community Benefit from Project: pedestrians, specifically university students and those who use the bus stops at this intersection
