**Notes:**
- Results for "Opportunity Gap Ethnicities" are a composite of combined results (proportionally weighted) for historically underserved ethnic groups, which include Black/African American, Hispanic/Latino, Native American, and Pacific Islander students.
- GAP measures are based on the difference in aggregate results between "Opportunity Gap Ethnicities" and White and Asian American students (combined).
- A complete disaggregation of results for each separate ethnicity will be provided each year in the Annual Strategic Plan Report.
- Targets based on state assessments will be recalibrated after 2014-15 results from the new Smarter Balanced assessment system are evaluated.
