Elementary, Middle and High School Expanded Learning Opportunities

Key People

Tsegaye Gebru, HOAS Executive Director will serve as Project Lead providing oversight and fiscal management of the *Elementary, Middle, and High School Extended Learning Opportunities*. He will lead a bilingual paid staff consisting of an After School Program Manager and Volunteer Coordinator, an After School Program Lead and Parent Advocacy Lead and a Family and Youth Services and Intake Coordinator. In addition to his past four years' experience as HOAS Executive Director, he brings extensive experience as a project manager working as the Networks Coordinator and Technology Lab Coordinator at Rainier Vista Neighborhood House and as Technology Lab Coordinator and Systems Administrator at HOAS. He was Computer Hardware and Software Distribution Coordinator for Costco of USA and Canada. He manages a staff of 15 and over 20 volunteers to deliver programs consistent with HOAS' mission of supporting East African refugees and immigrants with their successful transition into American lifestyles and culture and attaining self-sufficiency and well-being while preserving communities' ethnic cultures, values, and languages for future generations.

HOAS has 19 years' experience providing a variety of transitional, naturalization, educational, language skills, employment, individual and family counseling, and referral services to immigrants and refugees in Puget Sound. HOAS provides culturally- and linguistically-appropriate assessment and case management and services at its four sites in Seattle. Under Gebru's leadership, HOAS has collaborated with Seattle Public Schools, the WA Department of Social and Health Services, and the City of Seattle Human Services Department to address emerging needs, provide wraparound services to families, and develop programs that increase parents/guardians' participation to children's learning and improve academic achievement for Kindergarten to twelfth grade students. From 2005 to the present, HOAS has been awarded Seattle Public Schools' Refugee School Impact Grants of \$24,850 to \$30,000. Through that project, they have raised community involvement and helped students improve their grades, reading and writing skills, and pass the WA State tests and Seattle Public Schools' MAP tests.

Lauren Leary serves as After School Program Manager and Volunteer Coordinator. She manages activities to ensure the academic success of all the students enrolled in HOAS' four After School Programs at Broadview Library, New Holly, Rainier Vista and HOAS' main site in Columbia City. Working alongside the After School Program lead and under the leadership of HOAS' Executive Director, Leary helps to implement district, agency, and grant policies and regulations ensuring proper functioning of the After School program. Her work with the Executive Director focuses on efficiently allocating the budget throughout the four program sites. Responsibilities directly related to this RFQ include: collecting and maintaining records, program statistics and data needed for program administration, files management and student portfolios. In addition to tracking data on student demographics, ongoing participation and progress on all outcomes and indicators, she has also implemented an awards system for the students to encourage and promote good attendance, behavior, and overall academic improvement.

As HOAS' Volunteer Coordinator, Leary has facilitated partnerships with other organizations, schools, and the community to attract volunteers and individuals to our mission as well as retain volunteers through our volunteer program. She manages and is currently developing new communication avenues between staff, volunteers,

City of Seattle Families and Education Levy
Request for Qualifications
Elementary, Middle and High School Expanded Learning Opportunities

students, and families such as a new, easy to navigate website and social media outlets that promote HOAS programs and services for families, children and youth.

Fahmo Abdulle serves as the After School Program Lead and Parent Advocacy Lead. As the After School Program lead, she supervises the After School Program, works closely with the After School Program Coordinator and under the Executive Director. She is the point of contact and the facilitator for developing coordinated strategies that the families, students, volunteers, school district, and other organizations implement to ensure the academic success of every student in our program. Abdulle works closely with families to help with essentials such as housing and financial resources, and then promotes parents' involvement with their kids' education. She also serves as a mentor for all students served at New Holly and Rainier Vista sites, assisting them with meeting relevant academic outcomes for their grade level.

Hassan Wadere, who is fluent in Somali works as a Family and Youth Services and Intake Coordinator. He will supervise case management and referrals, and coordinate client files, data systems management, and programs for families and youths. His work ensures that East African parents and youth connect with various community groups, and creates programs that meet the needs of the demographics HOAS serves. He has facilitated HOAS' partnership with the King County Superior Court to help provide support and advocacy services for juvenile youth who are in the Juvenile Center and provide outreach to the parents and families of incarcerated youth in the southeast King County and Seattle areas.

Hassan has supervised and provided academic tutoring, mentoring, and youth leadership skills development. Consistent with the outcome that high school age students complete a Career and Technical Education (CTE) course of study before graduation, he has led the Community Service Project module of the One Economy-Comcast *Digital Connectors* Project which developed student knowledge and encouraged student interest in technology careers. Wadere has used his Digital Media background to help youth understand the vitality of voicing out concerns, develop reading and writing skills and knowledge in Digital Connectors civic journalism module. He and other HOAS staff helped young people develop leadership principles, real world learning opportunities, digital technology and financial literacy skills, and connect with the community through multimedia Community Cleanup, Neighborhood Mapping and Art projects. The goal-setting and work strategies promoted in this research-based program support graduation and higher education aspirations, academic achievement and pre-employment skills development.

Previous Experience - Demographics and Characteristics of Populations Served

We anticipate serving about 56 children and youths in Kindergarten through 12th grades in our After School Program. This projection is based on the numbers of students served in our After School Program at HOAS' Broadview Library, NewHolly, Rainier Vista and Columbia City sites in 2010 and 2011. From January to December of 2011, HOAS served 140 persons in its Tutoring Program and 45 in its Youth Program.

East African immigrants and refugees in the Seattle King County area are mainly low income residents. For example, of 73 students served in 2010 at Rainier Vista and New Holly, 67 were Southeast Seattle residents; 12 or 16% lived in single parent homes; and 56 parents, or 77%, reported having very low incomes of less than 30% of

City of Seattle Families and Education Levy
Request for Qualifications
Elementary, Middle and High School Expanded Learning Opportunities

the city's median. The largest numbers of students served by age group were 31 [aged 11 to 13], 24 [14 to 17], and 14 [6 to 10]. Of these 73 East African and African American children and youth, 64% were females and 36% were males. Forty-seven or 64% identified themselves as immigrants or refugees; 56% classified themselves as Limited English Speaking; and of 52 students at New Holly, two identified their first language as Amharic, nine [2%] identified it as Oromo and 41 or 79% identified it as Somali. These data suggest the challenges these students might have in accessing instruction, social interactions, and behavioral and academic expectations in school.

Like the students at New Holly, the program at Rainier Vista drew students from 20 schools in Seattle Public Schools and Renton School District, including: Bailey Gatzert, Beacon Hill, Dearborn Park, Dunlap, Hawthorne, John Adams, Kimball, Martin Luther King, Orca, South Shore, Van Asselt, SBOC, Aki Kurose, Garfield, Franklin, Washington, Mercer, Renton, Lake Ridge, and Dimmett.

Experience and Results

Horn of Africa Services (HOAS) is a multi-lingual, multicultural 501(c)(3), social services non-profit serving East African residents in the metropolitan Seattle-King County area. For HOAS, these East African residents have come from Djibouti, Eritrea, Ethiopia, Somalia, Sudan, and neighboring countries. HOAS has 19 years' experience providing a variety of culturally- and linguistically-appropriate case management, transitional, naturalization, educational, language skills, employment, and individual and family counseling and referral services to immigrants and refugees in the Puget Sound's highest needs areas. *These wraparound services to low-income East African refugees and immigrants lay the foundation for students' success in school and beyond.*

HOAS has also been instrumental in developing several coalitions of various East African groups through the Federation of East African Community Organizations in Seattle (FEACOS) to identify common concerns and to implement solutions. HOAS provides eight cultural orientation classes year which assist parents in understanding U.S. cultural and educational expectations. In 2011, HOAS provided assistance to 3457 people at a rate of 192 to 375 per month. They served as a Parent Advocate at School to assist parents in supporting their children in achieving all the outcomes and indicators. They served 140 unduplicated students in grades K through 12 in a Tutoring Program and 45 unduplicated students in its Youth Program.

HOAS collaborated with administration and support staff at 20 schools in Seattle Public Schools and Renton School District, including: Bailey Gatzert, Beacon Hill, Dearborn Park, Dunlap, Hawthorne, John Adams, Kimball, Martin Luther King, Orca, South Shore, Van Asselt, SBOC, Aki Kurose, Garfield, Franklin, Washington, Mercer, Renton, Lake Ridge, and Dimmett. Collaboration entailed obtaining, with parent permission and school cooperation, relevant student SOURCE records, MAP data, quarterly course grades and GPAs. The attached sample of student records are data sources that are available at any time. In addition to these student outcomes sources, the attached City of Seattle Human Services Department client profile report demonstrates how HOAS reports to that grant funder on participant demographic data and traits in its Youth Tutoring and After School Program.

In 2010 and 2011, HOAS provided parent workshops on Source system for 50 and 40 parents, respectively. In 2011, Horn of Africa Services served over 150 East

City of Seattle Families and Education Levy
Request for Qualifications
Elementary, Middle and High School Expanded Learning Opportunities

African youth in its programs, and has helped them connect with their parents. One of our youth programs has used technology as a tool to bridge the gap between 49 East African youth and their parents, and for 15 youths to develop leadership skills, understand community work, and voice their concerns through media journalism. We also use multimedia as a tool for intergenerational education on the immigrant experience, and to allow 38 residents to look at society in an unbiased manner. In 2010 and 2011, HOAS has helped 33 youth learn more about college preparation. We provided workshops on Financial Aid for 45 people. An Understanding Technology course designed for parents served 20 people in 2010 and 28 in 2011.

Anecdotal parent reports like this one attest to how these courses assist them and their children: "I have been living in Seattle since 2004. I have been assisted to learn about computers and have received help for my children. I am very grateful. I have received help . . . to complete applications, prepare resume. I have learned a lot of things I had not known: composing letters using the computer. . . I am very thankful."

Community Contacts

Linda Jordan Todd, Seattle Public Schools, ELL Consulting Teacher is the Refugee School Impact Grant Coordinator for the grant which we have been awarded annually since 2005. Todd's address: Dept of English Language Learners and International Programs; 2445 3rd Avenue South; MS 31-676; PO Box 34165 Seattle, WA 98124-1165

Sindy Nguyen is the contact for the City Of Seattle Youth Tutoring Grant. Her address is: City of Seattle Human Services Department; Seattle Municipal Tower; 700 5th Ave., Suite 5800; PO Box 34215; Seattle, WA 98124-4215. She can be reached at (206) 684-0417 [phone], (206) 621-5029 [FAX], email: sindy.nguyen@seattle.gov, or www.seattle.gov/humanservices.

Challenges and Strategies to Address Students' Challenges

Our students and their families face unique and significant challenges. Central cities, like Seattle and SeaTac have higher poverty rates and minority households disproportionately composed of single heads of households. In Tukwila, only 1.4% of Sub-Saharan African females reported being married. Often these single heads of households have limited abilities to meet U.S. parenting norms and expectations and support children's cultural immersion and school success because of their lack of formal education and proficiency with speaking English, long work days, norms of giving deference to teachers' decisions and actions, and unfamiliarity with U.S. culture. King County's Refugee Planning Committee and HOAS' focus groups relate such weak family and community supports to the pervasive struggles that children of refugees have with their parents' cultures and with children and youths adopting negative aspects of American culture.

HOAS found that 70% of immigrant parent focus groups report persistent problems with youth and adult violence, gang activity, managing their family lives using socially acceptable methods; and managing anxieties about their children's cultural immersion, their children's loss of heritage traditions and replacing verbal control of children's behavior with excessive punishment and using "physical control to keep order."

City of Seattle Families and Education Levy
Request for Qualifications
Elementary, Middle and High School Expanded Learning Opportunities

In providing services for these students, HOAS is challenged to provide adequate numbers of tutors to provide one-on-one support for each person. Currently, tutors work with small groups of two to three. Given the characteristics of our students, especially Limited English Proficiency, and the challenges they face in accessing instruction, they are not best served by working in groups of three or more.

Tracking to Success

HOAS obtains and tracks, with parent permission and school cooperation, relevant student SOURCE records, MAP data, quarterly course grades and GPAs. The attached sample of student records are data sources that are available at any time. In addition to these sources, the attached City of Seattle Human Services Department client profile report demonstrates how HOAS reports to that grant funder on participant demographic data and traits such as age, grade level, socioeconomic status, and first language spoken for participants in its Youth Tutoring and After School Program. Student rosters for Rainier Vista and NewHolly sites show grade level, parents, school, and mathematics and literacy pre-tests and post-tests. Clients and services provided show the advocacy, tutoring and youth program delivery by month for 2011

HOAS regularly tracks and records student performance in mathematics and literacy. For 60 students participating in the 2010 HOAS After School Tutoring program and who took the Seattle Public Schools pre- and post tests in mathematics, their average pre-test score was 68% and average post-test score was 73%. In literacy, their average pre-test score was 69% and average post-test score was 75%.

For 49 students participating in the 2011 HOAS After School Tutoring program and who took the Seattle Public Schools pre- and post tests in mathematics, their average pre-test score was 61% and average post-test score was 72%. In literacy, their average pre-test score was 64% and average post-test score was 75%. In addition to these collected data, midyear data is collected and ongoing monitoring through daily attendance records, tutor observations, in-person interviews and parent discussions allow tracking of students' difficulties, successes, and planning for intervention.

HOAS collaborates with Seattle Public Schools (SPS), the Department of Social and Health Services (DSHS), and the City of Seattle Human Services Department (HSD) extensively to address the new trends and to develop and improve children's and parents/guardian's programs that increase parents/guardians' participation to children's learning and improve academic achievement for children ages 2 and up. For Seattle Public Schools, and with Linda Jordan Todd - the ELL Teacher Refugee School Impact Grant from 2005 to the present, HOAS has encouraged community involvement in a project with annual budgets ranging from \$24,850-30,000 that helped students to improve their grades, reading and writing skills, and to pass the WASL test.

Women and Minority Inclusion: Non-discrimination

HOAS may hire additional employees to meet the needs of the proposed program. We regularly reach out to like-focused service organizations, small businesses, including women and minority businesses through a variety of media and publications. During hiring, interview teams are apprised of our non-discrimination policy and required to use it in making hiring recommendations.

Classes Scheduler/Scores Assignments Attendance

Franklin High School Announcement

MATH EOCs ARE COMING SOON!!!!

The new Washington state Math End-of-Course (EOC) exams are coming soon. These new exams replace the old Math WASL and HSPE exams. The Algebra 1 exam is on Wednesday June 8 and the Geometry exam is Thursday June 9. All students enrolled in those classes will be testing on those days, as well as all students in grades 9, 10 and 11 who have yet to meet state math standards. As you know, all students in grades 9 & 10 need to pass an end-of-course exam to meet state graduation requirements. Juniors also meet state standards if they pass one of these exams. For more details, contact Jim Jeffreys, FHS Assessment Coordinator at (206) 252-6218 or at jjeffreys@seattleschools.org

MATH EOC TEST PREP SESSIONS - ROOM 205 AND ROOM 207!!!!

To help you prepare for the new Math End-of-Course exams, the FHS Math department is running test prep sessions Mondays through Thursdays from now until the test dates in June. Algebra test prep sessions will be held in room 205 and Geometry test prep sessions will be in room 207 at 2:45pm each day. Stay tuned for more details on the skills being covered each day. Extra credit, door prizes and a drawing for an iPad or an iPod will be on hand for frequent attendees!!! If you want to pass the new exams, you better be there!!!

Classes Overview

Assignments Due This Week

Classes in Session - Semester 2

Period	Class	Course Code	Section	Instructor	Scores		Updated
					Term 1	Term 2	
1	SPANISH 1B scores class page	HVK1280	01	Jennifer L. Luthé jluth@seattleschools.org 252-6245	C (75.8%)		5/31/11
2	ALGEBRA 1B scores class page	HMA2366	14	Lee Ann Torres ltorres@seattleschools.org 252-6266	B (83%)		5/27/11
3	INTRO TO LIT & COMP 9B scores class page	HLA3095	03	Richard S. Damon rsdamon@seattleschools.org 252-6189	C- (70.9%)		5/27/11
4	WORLD HISTORY 2 scores class page	HSS1011	03	Dale W. Haefler dwhaefler@seattleschools.org 252-6187	B- (80.0%)	C (75.4%)	5/31/11
5	PHYSICAL SCIENCE 2 scores class page	HSC1261	03	Brian Schriener bschriener@seattleschools.org 252-6150	C (73.7%)	C- (70.4%)	5/20/11
6	HEALTH EDUCATION HS scores class page	HHE9006	10	James H. Woodford jhwoodford@seattleschools.org 252-6150	B- (80.6%)		5/30/11

Assignments Due This Week

Note: Because teacher participation in The Source is voluntary, not all teachers post assignment information here. Some teachers use their Class Page to post Assignments. To view Class Pages, click the class page link below the class name. To email teachers for assignment information, click the Schedule & Scores icon.
