Service Delivery:

Before School

After School

During School

Weekends

School Breaks

Current School Partners: Garfield HS, Madrona K-8, Beacon International School, John Muir Elementary

Program Components: Depending on the school OBCC provides a nurse practitioner, therapist and a community care coordinator. Much of our work has been to assist schools in creating a more robust MTSS model. Our therapists work with students, parents and school staff using cognitive behavioral techniques to improve the child's overall functioning level with the hope of enhancing that student's educational experience. Many of these students have and are experiencing trauma so much of our efforts are to help school staff create a trauma informed environment. Our community care coordinators help families attain concrete needs; bike helmets, clothing and how to access free legal services. Plus they will help facilitate nutrition/cooking classes, lead attendance competitions and host health fairs. Our NPs will not only see students with health issues but will lead health related classes. Any student that OBCC staff serves and their siblings are welcome to utilize all of the services at our clinic; WIC, dental, primary care and counseling services.
