"" Indicates that the cell has been suppressed for confidentiality reasons. (Less than 3 employers are represented or more than 80 percent of the employment comes from one firm), or "artificially" to prevent calculating the value of the other suppressed cell in that row.

Source: Washington State Employment Security Department (ESD) and Puget Sound Regional Council (PSRC).

These employment estimates are based on the Washington State Employment Security Department's (ESD) Quarterly Census of Employment and Wages (QCEW) series, First Quarter. This series consists of employment for those firms, organizations and individuals whose employees are covered by the Washington Unemployment Insurance Act. Covered employment excludes self-employed workers, proprietors, CEOs, and other non-insured workers. Typically, covered employment has represented 85-90% of total employment. The employment data represents the number of jobs during March of the given year. Note that this includes part-time and temporary employment, and if a worker holds more than one job, each job would appear in the database.

By agreement, ESD sends individual business records from the four county region to PSRC. PSRC also uses a survey of its own to yield greater locational detail for public sector jobs (including public school data obtained from the Washington State Office of the Superintendent of Public Instruction) and for the Boeing Company. The summary tables included here are aggregate values from the database, with slight adjustments to match ESD totals by county.

Confidential employer information is protected through data suppression, as stipulated by ESD. Data from individual employers is not shared; where aggregate employment values represent fewer than three reporting firms, or when a single employer accounts for more than 80 percent of jobs, the value is withheld (in these tables, replaced with an asterisk). Additionally, since grand totals are included in the table, an additional suppression is made in any industrial category or geography with a single suppressed value, to prevent disclosure through subtraction.

Public sector jobs (Government and Education categories), are not suppressed. Boeing Company employment is included in the Manufacturing sector and as part of NAICS category 33.
