June 17, 2010  Project: Pedestrian Scale Lighting Standards  
Phase: Briefing  
Last Reviewed: Feb 4, 2010  
Presenters: Ahmad Darrat, SDOT  

Attendees:   Rebecca Frestedt, DON  
Genna Nashem, DON  
Barbara Gray, SDOT  

Time: 1.25 hours  

ACTION  
The Commission thanked Ahmad Darret of SDOT for his clear presentation of the Pedestrian Scale Lighting Standards effort and unanimously approved the design direction, with the following comments:  
- Consider how the motion sensor technology can be employed so that the lights work as well for bicyclists as pedestrians.  
- Limit the number of colors used for the light fixtures to provide consistency city wide.  
- Ensure fixture consistency especially throughout the historic districts, Olmstead boulevards, and parks.  
- Aim for more universally available fixtures. The Commission is concerned that the proprietary nature of some of the fixtures may reduce SDOT’s ability to properly maintain them.
