

CID Framework and Implementation Plan

Work Group 5 - Public Realm

April 5, 2018 Meeting

Time: 4:00-5:30 pm

Location: Hing Hay Coworks 409b Maynard Ave S

AGENDA

4:00-4:05 Welcome/Introductions (Sonny Nguyen, Workgroup lead)

4:05-4:40—Continue Conversation on Under I-5 concept designs, plus update on Danny Woo Garden Improvements (Andrew Tran InterIm CDA)

Discussion prompts for the Under I-5 continued discussion:

- What are general impressions of the design treatment for both Jackson St and King St?
- SiteWorkshop confirmed that there will be an outdoor basketball court at the new Yesler Park and feel that having another court under I-5 is redundant. Do folks feel strongly about having a court under the freeway or is there another desired use?
- How do folks feel about integrating a smaller dog off leash area on the King St side?

4:40–5:20 2nd Ave Ext S to S Dearborn St - Bicycle Connection (Sam Woods and Dan Anderson SDOT)

SDOT staff will present information about this project and alternative concepts. Staff would like to hear the workgroup members' first impressions of the concepts, learn more about these streets and what's working and not working today, and understand who they should talk to -- the stakeholders -- so they can conduct a successful public outreach process.

5:20-5:30 Workgroup member updates/announcements

Notes

Next Meeting: Thursday, May 3, 4:00 to 5:30 PM
