

SEPA EIS Process

Seattle 2035 Comprehensive Plan Update EIS

* Comprehensive Planning Milestone

Proposed EIS Scope

Seattle 2035 Comprehensive Plan Update EIS

For each topic below, the programmatic environmental impact analysis will consider existing conditions, impacts, mitigation and significant unavoidable impacts

Land Use: Height, Bulk, Scale, Compatibility

Impacts related to growth patterns, physical compatibility, land use and neighborhood character

Relationship to Plans & Policies

Evaluate relationship to regional and local plans, including the policies and objectives of the City's Comprehensive Plan and functional plans

Transportation

Future conditions in 2035 with growth-related impacts: trip generation, congestion measures, transit, bicycling and walking, parking

Population, Housing, Employment

Current and future housing conditions, employment and income patterns, potential for change in mix and types of jobs

Utilities

Electricity, water supply, stormwater and wastewater, including natural drainage systems

Public Services

Police, fire/emergency services, parks/recreation, schools

Air Quality

Air pollution impacts, including greenhouse gas emissions

Noise

Spillover noise impacts on adjacent areas

**Scoping period is underway
— closes on April 21, 2014**

Draft EIS Released Fall 2014
