

BENCHMARKING & REPORTING

HOW TO GUIDE

Step-by-step instructions to use the U.S. EPA’s Portfolio Manager to comply with the City of Seattle’s Energy Benchmarking and Reporting requirements.

	C Resources	

What is Energy Benchmarking?

Benchmarking tracks the total electricity, natural gas, steam, or other utilities used in a building (often called energy or building performance). The U.S. EPA's ENERGY STAR Portfolio Manager is the standard for benchmarking. This How to Guide shows how to benchmark a building to determine the building's:

- **Energy Use Intensity (EUI)**, which indicates the building's energy use per square foot (kBtu/sq. ft.) per year. A lower score indicates a more efficient building.
- About 20 types of buildings will also receive a 1-100 **ENERGY STAR** rating. A higher score indicates a more efficient building.

See How Your Building's Energy Use Stacks Up!

When you are finished benchmarking, compare your building's energy use intensity (Site EUI), which is its annual energy use per square foot with other similar types of buildings in Seattle at www.seattle.gov/EnergyBenchmarking. The information is based on data analyzed from buildings 20,000 SF or greater that had energy use reported to the City, as required by the Seattle Energy Benchmarking and Reporting law.

STEP 1 Get Started

- Confirm the accuracy of the information provided about the building on the notification and/or warning letter sent by the City of Seattle. This includes:
 1. Building size
 2. Building address
 3. Year built
 4. Building owner or property manager

To correct errors, please contact the Benchmarking Help Desk at energybenchmarking@seattle.gov or (206) 727-8484.

- Obtain the following details about the building's use:
 1. The primary use of the building. For example: multifamily, office, warehouse, etc.
 2. The gross floor area of the building, not including parking area.
 3. The floor area of parking that is metered with other building uses. For example: a garage with lights and ventilation that is connected to the "house" meter, which may also serve common areas in the building.
 4. The floor area of any other uses of the building. For example: a multifamily building might have ground floor retail shop(s).
 5. For buildings eligible for an ENERGY STAR score, other details like operating hours, number of workers, etc. are required for benchmarking. Use the **Property Use Details Worksheet for ENERGY STAR Eligible Buildings** in the Appendix of this guide.
 6. Information about what energy utilities are used for both the common area and tenant spaces. For example, does the ground floor restaurant have gas service from PSE in addition to City Light electric?
- **Already benchmarking?** If you currently benchmark your building using Portfolio Manager, simply skip to Step 4 to confirm buildings' **Energy Use Intensity** and then complete steps 5 and 6.

Need help?

For free help, e-mail energybenchmarking@seattle.gov or phone (206) 727-8484 (M-F, 8-5).

Visit the website to learn about in-person help and free workshops.

Missing your letter?

Contact the Help Desk for a copy or to find your building's ID number.

Prefer to use an outside service provider?

Visit www.neec.net/benchmark for a list of benchmarking vendors.

Continue to Step 2 →

STEP 2 Set Up Property in Portfolio Manager

- **Create a new account** in Portfolio Manager at www.energystar.gov/portfoliomanager.

1. On the right side of the page, click the blue **Register now** button.
2. **DO NOT** use ANY special characters in your username (letters and numbers only).
3. **KEEP A RECORD** of the username and password — it is not possible to change usernames. *To recover a lost password click on the ‘forgot password’ link or submit an online request [form](#).*
4. We recommend using one Portfolio Manager account per building, so buildings can be easily transferred to a new employee, manager or owner.

What if I don't use a computer?

1. Call (206) 727-8484 and provide a mailing address.
2. Complete and return mailed forms and our staff will facilitate your computer process

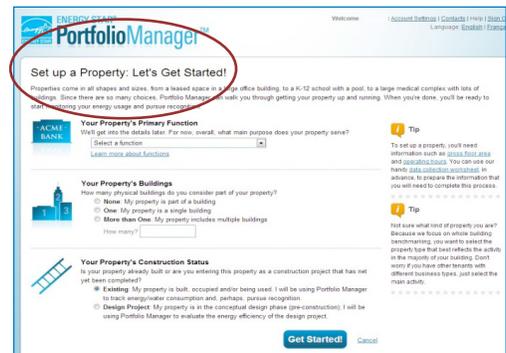

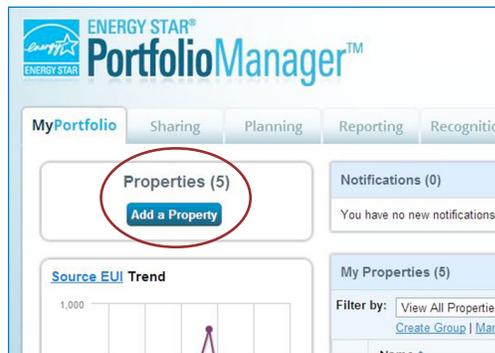

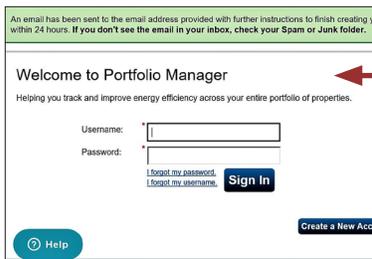

- Answer the basic questions about you and your organization.

1. For **Reporting Units**, choose “Conventional EPA Units (e.g., kBtu/ft²).”
2. For “Can other people search for you and send a connection request?,” choose **Yes**.

- After creating an account, you will get an email to verify your account. Once verified, it will take you back to the Portfolio Manager home page. Once there, Login with your new credentials, then click on **Add a Property**.

1. Select the primary function of the property.
2. Select the number of buildings. Most people will select, “One: My property is a single building.” If the property is a campus (see right), please read **EPA’s Guide: [How to Benchmark a Campus](#)**.
3. For Your Property’s Construction Status, select Existing.

A campus is a set of buildings on a shared energy meter or central heating plant (not including hospitals, senior care, or K-12 schools).

How does Portfolio Manager define a Property? Portfolio Manager calls buildings “properties” and in most cases one building = one property. In Portfolio Manager, “properties” mean a contiguous parcel, not all the properties that a person may own throughout a city.

4. Click **Get Started!**

- Enter Basic Property Information** including the building name, address, year built, occupancy and gross floor area (not including parking). Under the “Do any of these apply?” section.
 1. If parking IS served by an energy meter connected to the building it serves, **SELECT** “My property’s energy consumption includes parking areas”.
 2. If parking served by an energy meter **NOT** connected to the building it serves (i.e. it is on a separate meter), **DO NOT** select “My property’s energy consumption includes parking areas”.
 3. Check other options that apply.
- Click **Continue**.
- On the next page, enter details about the primary building use, and additional property uses, based on the boxes checked on the prior page.
- The specific use details required will differ based on the property type selected. Refer to the **Property Use Details Worksheet for ENERGY STAR Eligible Buildings** in the Appendix of this guide.
 1. Hover the computer mouse over each property use characteristic for definitions.

Characteristic	Value	Current As Of	Temporary Value
Gross Floor Area	12000 Sq. Ft.	01/01/1992	<input type="checkbox"/>
Weekly Operations Hours	default	01/01/1992	<input type="checkbox"/>
Number of Workers on Main Shift	default	01/01/1992	<input type="checkbox"/>

Tip Space Uses should be summarized to reflect the total square footage of any given space type. All retail square footage should be added together, as well as office, restaurant, multifamily, etc.

2. Actual values for space details (i.e. operating hours, number of bedrooms, etc.) are required for reporting. **Do not** use “default values”.
3. The **Gross Floor Area (GFA)** that you entered when setting up your property will automatically populate into the GFA section.

NOTE If your property has multiple uses, you may want to adjust this number based on the actual GFA for the primary type of use. (Example: The building’s primary function is office and the total GFA of the whole building is 30,000 sf. It also has some retail stores totaling 10,000 sf.) When entering the attributes for the primary space type (office), change GFA to reflect JUST the office space: 20,000 sf. Next click “Add Another Type of Use” to enter the attributes and remaining square footage for the building’s retail space.

Additional Uses?

- Add more space uses to your property by selecting an option in the drop down menu **Add Another Type of Use**, and then click “Add”. This will open up a different list of attributes for that particular space type. [Continue to Step 3](#) →

STEP 3 Obtain Energy Meter Usage Data

Data Exchange

Seattle City Light (SCL), Puget Sound Energy (PSE), and Enwave Seattle (Steam) can upload whole building data to your Portfolio Manager account every month via Portfolio Manager data exchange (web services). NOTE: This service was formerly called Automated Benchmarking or ABS.

Utility Contact Information

Seattle City Light - See page 7

Email scl_portfolio_manager@seattle.gov
Phone (206) 684-7557
Website www.seattle.gov/light/accounts/energyusage

Puget Sound Energy - See page 11

Email mydata@pse.com
Phone (425) 424-6486
Website http://mydata.pse.com

Enwave Seattle (formerly Seattle Steam) - See page 16

Email pdlesk@utlitystudio.com
Phone 847-420-6432
Website www.enwaveseattle.com/energy-star-reporting.htm

Manual Meter Entry

If only few energy meters serve your building, or you want to track energy use closely by tenant or meter AND have access to all the bills, another option is to enter the monthly energy use by month into your Portfolio Manager account. Manual meter entry can be used for some or all of your utility services. For example, data exchange could be used for City Light electric, but Enwave could be manually entered.

Manual Meter Entry instructions are in the Appendix.

3A SEATTLE CITY LIGHT DATA EXCHANGE

Phone: (206) 684-7557

Email: scl_portfolio_manager@seattle.gov

Website: www.seattle.gov/light/accounts/energyusage

1. Fill Out & Submit Consumption Request Form

- Visit www.seattle.gov/light/accounts/energyusage to complete and send the **Portfolio Manager Automated Benchmarking Consumption Request** form and agree to the **Terms and Conditions**.
- Your Request form will be processed within four business days. Look in your email for the **Automated Benchmarking Authorization** form from SCL.

2. Authorization and Connecting to SCL

IMPORTANT: These screenshots supplement the instructions provided on SCL's **Automated Benchmarking Authorization** form, which you must have to proceed.

- Log in to Portfolio Manager with the **Authorized Portfolio Manager Username** listed on your **Seattle City Light Authorization form**.
- If you **have not previously added SCL** as a contact, you will need to add them:
 1. Click the **contacts** link in the upper right hand corner, then, leaving the search box empty, click the Search button.

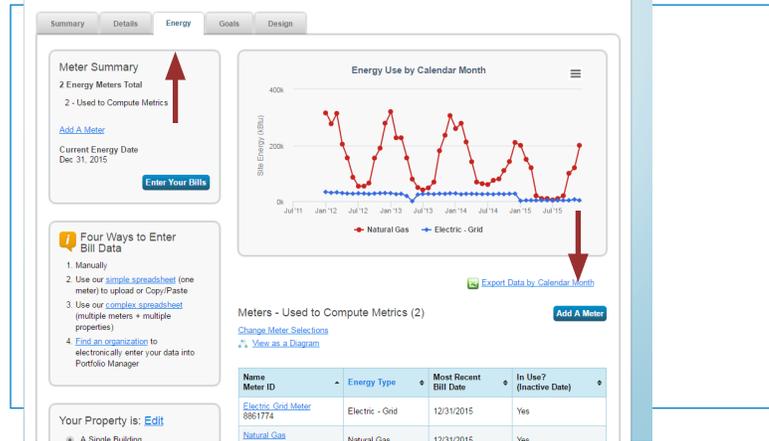

The screenshot shows the Portfolio Manager interface. At the top right, the 'Contacts' link is circled in red. Below the navigation bar, there is a search section titled 'Your Search Criteria' with input fields for Name, Username, and Email Address, and a 'Search' button. To the right of the search criteria is a list of contacts with 'Connect' buttons. The contact 'SCL Portfolio_Manager' is circled in red.

Name	Connect
Anthony Scalfani NOT AVAILABLE with NORESKO	Connect
Anthony Scalfani Manager of Project Development with Apollo Solutions Group	Connect
L Bienhoff (SCL Test) NOT AVAILABLE with SCL_Test	Connect
Monica Pedescleaux Asset Management Specialist with General Services Administration	Connect
SCL Portfolio_Manager Seattle City Light with Seattle City Light	Connect
SCL TESTCUST3 TEST APP DEV with SCL TESTCUST3	Connect

2. Under **Your Search Criteria**, enter **SCL** as Name. Enter or click Search.
3. From the list of contacts, locate **SCL Portfolio_Manager**.
4. Click the **Connect** button to the right of the name.
5. When prompted, enter your **Portfolio Manager Username in all uppercase letters**, check the Terms of Use and then **Send Connection Request** button.
6. This connection request should be accepted in approximately 1 hour.
Please wait before proceeding.

3. Connection Approval and Virtual Meter Setup

- ❑ In Portfolio Manager, on the **MyPortfolio** tab, under the **My Properties** section, click on the name of the building that has the meter you are setting up.
- ❑ Still on **MyPortfolio** tab, click the **Energy** tab, then click **Add A Meter**.

- ❑ In the **Get Started Setting Up Meters** section, answer the questions:
 1. Under **Sources of Your Property's Energy** check **Electric** and **purchased from the grid**.
 2. For **How Many Meters?** Enter **1**.
 3. Scroll down below the Water Usage section and click **Get Started!**

- ❑ On the next page, in the **Meter Name** column, click on the words: **Electric Grid Meter**.
 1. Replace the words: **Electric Grid Meter** with the **Virtual Meter Name** that SCL provided on the authorization form.
 2. Under **Units**, select **kWh (thousand kilowatt hours)**.
 3. Under **Date Meter Became Active**, type in: **01/01/2009**. (Leave "Inactive" date blank and "Enter as Delivery" un-checked.)

Tip: Copy the Virtual Meter name directly from the SCL authorization form and paste it to reduce typos.

1 Energy Meter for 1234 Broadway St (click table to edit)								
<input type="checkbox"/>	Meter Name	Type	Other Type	Units	Date Meter became Active	In Use?	Date Meter became Inactive	Enter as Delivery?
<input type="checkbox"/>	1234_broadway_st_01	Electric - Grid		kWh (thousand)	09/25/2013	<input checked="" type="checkbox"/>		<input type="checkbox"/>

[Delete Selected Entries](#)
[Add Another Entry](#)

4. Click **Create Meters**.
 5. Click **Continue**.
- On **Select Energy Meters to Include in Metrics** page:
1. Check all of the meters.
 2. Select: **These meter(s) account for the total energy consumption for this property.**
 3. At the bottom of the screen, click the **Apply Selections** button.

Select Energy Meters to Include in Metrics

Tell us which meters to include when calculating the Energy metrics for [85 Unit WS Building](#) so that we can provide you with the most accurate metrics possible.

Summary

2

Meters representing the total energy consumption for [85 Unit WS Building](#) (a single building).

About Sub-meters

If you have sub-meters to measure energy or water consumption for a specific purpose, and you also have a master meter (which measures total consumption), counting both of those meters would double count your consumption and skew your

Energy Meters

Select all meters to be included in your Energy metrics. (Hint: All meters should be included unless they are [sub-meters](#).)

	Name Meter ID	Type
<input checked="" type="checkbox"/>	Natural Gas 25794037	Natural Gas
<input checked="" type="checkbox"/>	Electric Grid Meter 25794064	Electric - Grid

Total of 2 meter(s). Tell us what this represents:

These meter(s) account for the total energy consumption for [85 Unit WS Building](#) (a single building).

These meter(s) do not account for the total energy consumption for [85 Unit WS Building](#) (a single building).

4. Select Permission Levels for Other Web Services Providers

If you are using other automated data services (such as Seattle City Light), then you will be given the option to allow other utilities to view your PSE meter data.

- On the **Share Additional Meters with Web Services Provider** page, select “None” on the **Puget Sound Energy MyData** tab.
- Select **Apply Selections and Authorize Exchange**.

ENERGY STAR®
PortfolioManager®

Welcome TOSCANO: Account Settings | Contacts | Help | Sign Out

Congratulations! Any energy meters you selected have been successfully associated to your property(ies).

Share Additional Meters with Web Services Provider

You have successfully created additional meters for your property. We notice that your property is shared with companies that exchange data directly through Portfolio Manager web services. If you want these companies to be able to access/view your new meters, you must share these meters directly with them. If you do not wish to grant access to this meter, please select "None" as the permissions level and the meter(s) will not be shared at this time. To share in the future you will need to select "Edit Contact's Permissions" from the Sharing table on the Summary tab for your property.

Select the permission levels you would like to grant each web services provider below:

Puget Sound Energy MyData

The following information is required by [Puget Sound Energy MyData](#) in order to provide service to your property(ies). If you have questions about how to complete this information, please contact them directly.

Meter Name	None	Read Only	Full Access	Meter Number ¹
907_warron_ave_n_tosciano_01202017_ppi6793934148	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	

¹ Meter Number: Example: 0123456789. The 9 or 10 character meter number for which you would like to receive consumption - usage data. This may be alphanumeric, and it may contain leading zeroes. - Between 5 and 10 Characters

[Apply Selections and Authorize Exchange](#) [Cancel](#)

5. Share Property with Seattle City Light

- Go to the **Sharing Tab** and click **Share (or Edit Access to) a Property**.
 1. Select **One Property** and then choose the building to connect to SCL.
 2. Select contact, **SCL Portfolio Manager**
 3. Under **Choose Permissions**, select the second option: "Personalized Sharing & Exchange Data."
 4. Click **Continue**.

1 Select Properties

We'll get into the details of the level of access later. For now, which properties do you want to share and/or edit access to?

One Property - Select Property -

2 Select People (Accounts)

Which people (accounts) do you want to share these properties with (or modify their current access to)? The access for each can be different and you'll be able to specify that on the next page.

Select contacts from my contacts book:

City of Seattle Annual Reporting (SEATTLE.GOV)
SCL Portfolio Manager (SCL_PORTFOLIO_MANAGER)

? Help To select multiple contacts, hold down your Control (CTRL) key and click on each selection. Only your connected contacts appear in this list.

- On the next screen, select the **Exchange Data** button, which will pop-up the Access Permissions window.
 1. In the pop-up window, enter the **Premise ID number** found at the top of your **SCL Authorization Form**. You need to enter the Premise ID number in **TWO** places as shown below.

Select Access Permissions to 1234 Broadway St for SCL Portfolio Manager

The following information is required by SCL Portfolio Manager in order to provide service to your property(ies). If you have any questions about how to complete this information, please contact them directly.

PremiseID: * Example: 1234567890

Parent Premise ID associated with the property and is provided by SCL Portfolio Manager or SCL Representative.; 1 - 10 Characters [More Information](#)

Select the permission level below that you would like to grant SCL Portfolio Manager for each category.

Item	None	Read Only Access	Full Access	PremiseID ¹
Property Information	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
▼ All Meter Information				
▼ Energy Meters				
Electric Grid Meter	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="text"/>
Electric Grid Meter	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="text"/>

2. IMPORTANT: Set the Access Permissions exactly as follows:

Property Information: **Read Only Access**

SCL Virtual Meter Name: **Full Access**

For any other meters listed: **None**

Goals, Improvements: **None**

Recognition: **None**

3. Scroll down. For **Share Forward**, select "No".

4. Scroll down the window and click **Apply Selections & Authorize Exchange**.

- This will open the Sharing window again. Click on the **Share Property(ies)** button to finish.
- You should see data in your Virtual Meter in about four hours.
Thereafter, SCL will update this meter monthly.

3B PUGET SOUND ENERGY “MYDATA”

Phone: (425) 424-6486

Fax: (425) 462-3418

Email: mydata@pse.com

Website: <http://pse.com/accountsandservices/YourProperty/Pages/Automated-Benchmarking.aspx>

PSE CUSTOMERS: These instructions will show you how to enroll in PSE MyData to obtain your buildings natural gas usage history. MyData will also provide automated monthly uploads of gas usage thereafter once enrolled.

1. Add PSE as a Contact

- If you **have not previously added PSE** as a contact, you will need to add them:
 1. Click the **Contacts** link in the upper right hand corner.
 2. Click on **Add Contact**.

3. Enter **ESIOOPERATOR** as the Username. Click **Search**.
4. From the list choose **Puget Sound Energy MyData**. Click the **Connect** button.
5. Review **Terms of Use**, 'check the box' and click **Send Connection Request**.
6. This connection request should be accepted in less than 1 hour.

2. Share Your Building with PSE

- Go to the **Sharing Tab** and click on **Share (or Edit Access to a Property)**.
- Select the properties to share with **Puget Sound Energy MyData**.
- Under **Choose Permissions**, select the second option: "Personalized Sharing & Exchange Data." Click **Continue**.
- On the next screen, select the Exchange Data button, which will pop-up the Access Permissions window.

IMPORTANT:

PSE requires release forms if you have four (4) or fewer tenants in your building that each receive PSE service. Each account holder must complete and sign the PSE Customer Data Release Form. We recommend downloading the form now, as it may take time to contact all tenants.

- **IMPORTANT:** Select the Access Permissions as follows:
 1. Property Information: **Full Access** (PSE requires Full Access so that they can create a new meter in your account.)
 2. All Meter Information: Leave as **None**. (Choose None for access, even if old PSE meters are listed. Leave any meters numbers as is.)
 3. Goals, Improvements: Leave as **None**
 4. Recognition: Leave as **None**

CAUTION! Any non-PSE meters, such as City Light electric must be listed as None for access.

Please select the permission level you would like to grant [MyData, Puget Sound Energy](#) for [Building](#) for each category. If "None" is selected for all items, [MyData, Puget Sound Energy](#) will not receive any access to this property.

Item	None	Read Only Access	Full Access
Property Information	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
All Meter Information	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Goals, Improvements, & Checklists	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Recognition	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

[Apply Selections & Authorize Connection](#)

- Scroll down. For **Share Forward**, select "No".
- Click **Apply Selections & Authorize Connection**.
- This will open the **Sharing** window again. Click on the **Share Property(ies)** button to complete the sharing process.

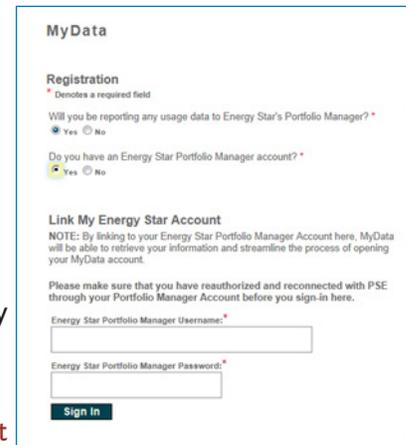

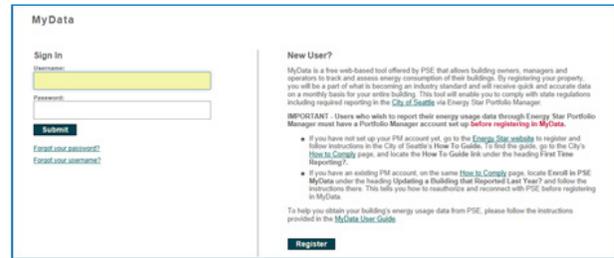

IMPORTANT: Your sharing request should be accepted by PSE in approximately **1 hour**. Do not start the next step until MyData, Puget Sound Energy is listed as having Exchange Data permissions in Portfolio Manager, as shown below.

The screenshot shows the 'Sharing' tab in the MyPortfolio interface. On the left, there is a section for 'My Shared Properties (2)' with a 'Share a Property' button. Below it is an 'Exchanging Data' section with a help icon and text explaining how to connect with other organizations. On the right, there is a 'Sharing Notifications (10)' section with a list of notifications, each with a 'Clear' button. Below that is another 'My Shared Properties (2)' section with a 'Share a Property' button and a table of properties. The table has columns for Name, Permissions, and Action. The row for 'MyData, Puget Sound Energy' is circled in red, showing 'Exchange Data' permissions and an 'Action' dropdown menu.

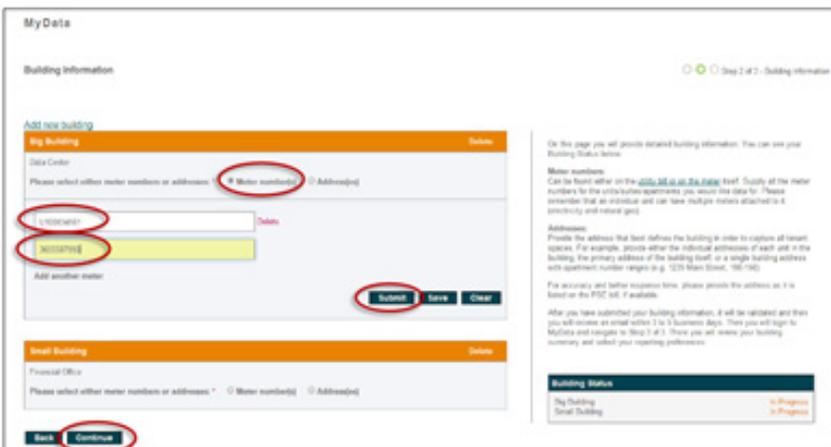

Name	Permissions	Action
Ocean Vista Offices	Exchange Data	
Annual Reporting - City of Seattle	Exchange Data	I want to...
MyData, Puget Sound Energy	Exchange Data	I want to...
Yosai School	Exchange Data	

3. Create a New Account in PSE's MyData

- ❑ Go to mydata.pse.com
- ❑ Read the new user information and click the **Register** button.
- ❑ Answer **Yes** to both questions:
 1. Will you be reporting any usage data to EnergyStar's Portfolio Manager?
 2. Do you have an EnergyStar Portfolio Manager account?
- ❑ Sign in with your **existing Portfolio Manager Username and Password**.
 1. If you connected to PSE and shared properties and waited for PSE to accept the shares, your account contact information should automatically populate on the Registration page. PSE will email you using this information, so make corrections.
 2. If it does not populate, stop and contact PSE at [425-424-6486](tel:425-424-6486) or email mydata@pse.com.

- ❑ After completing MyData registration, **check your email** for a message from MyData to activate your account. Click the link in the email to go back to MyData.
- ❑ Now in **MyData**, click the Next button.
 1. The properties shared from Portfolio Manager should all be listed on the Building Information page.
 2. If your properties are not listed, stop and contact PSE at [425-424-6486](tel:425-424-6486) or email mydata@pse.com. Do not click "Add a New Building."

- ❑ On the **Building Information** page, click **Show Details** (in the orange bar) to see the details of each building.
 1. Select Meter numbers and enter any meter numbers that are not listed.
 2. Alternatively, you may select Address(es) and enter the addresses or range of addresses for the building.
 3. If you need to go get information, you can click Save and come back later to finish.

- When done entering the information, click **Submit**.
 1. **MyData should email you** in up to 3-4 days to invite you back to review the building information and select report preferences.
- After you are emailed that the building is ready, go back to **MyData** and click on **Show Details** (in the orange bar) to see the details of each building.
 1. In the blue box, select **Whole Building, Monthly** and **Post to EnergyStar**. (These will likely be the default selections).
 2. Confirm addresses and meter numbers. **If anything is incorrect or missing, contact PSE.**
- If asked for, download & complete any required **release forms** and upload them. *PSE requires release forms for buildings with fewer than 5 tenants. For questions about this requirement, please contact PSE.*

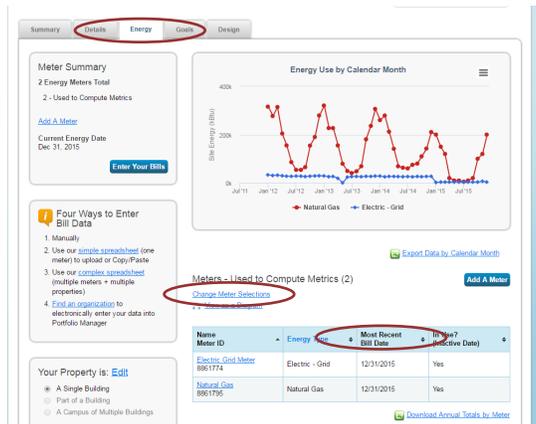

The screenshot shows the 'My Desk' interface with a message: 'This building has been created and is ready for your review. Please choose your report preferences and complete your request.' The status is 'Release Forms Required'. The form includes sections for 'Please choose how you prefer to receive data:' with radio buttons for 'Individual Meters' and 'Whole Building' (selected); 'Reporting Options:' with radio buttons for 'Monthly', 'One Time Only', and 'Post to Energy Star' (selected); and a list of tenants. Each tenant entry includes a 'Tenant/Unit Name' field, address, and meter number. Red circles highlight the 'Post to Energy Star' option, the tenant list, and the 'Download blank release form' and 'Upload completed release form' links for each tenant. A 'Submit' button is at the bottom.

- When complete, click **Submit**. PSE will prepare your usage report and email you when it is complete. Please allow up to three days.
- If you do not get an email, contact PSE's User Support at 425-424-6486 or email mydata@pse.com.

4. Configure New PSE Meter in Portfolio Manager

After MyData is set up, PSE should add a new gas meter to your Portfolio Manager account called **MyData Usage - GAS** meter. This step shows how to log into your Portfolio Manager account to make sure the new PSE MyData Usage - GAS meter is listed and configure it to obtain the building's required EUI.

- Log back into Portfolio Manager and click on the property to open.
- On the **Energy** tab, look for a meter named **PSE MyData Usage - GAS**.
- Check that the **Most Recent Bill Date** lists a date within the last two months.

- On that same page, click **Change Meter Selections**.
 1. Under **Energy Meters**, add a check mark to include **PSE MyData Usage-GAS** in the energy metrics. **IMPORTANT:** A check should also be next to the electric and any other energy meters *currently serving* the building. If there are other previously entered PSE meters that are now included in the new PSE MyData Meter, uncheck them. You may also consider deleting these “old” PSE meters.
 2. Select “These meter(s) for the total energy consumption of this property.”
 3. Click **Apply Selections**.

Select Energy Meters to Include in Metrics

Tell us which meters to include when calculating the Energy metrics for [Test High Use Apartments \(ID 49769\)](#) so that we can provide you with the most accurate metrics possible.

Summary

2

Meters representing the total energy consumption for [Test High Use Apartments \(ID 49769\)](#) (a single building).

1 About Sub-meters

If you have sub-meters to measure energy or water consumption for a specific purpose, and you also have a master meter (which measures total consumption), counting both of those meters would double count your consumption and skew your metrics (e.g., artificially increase your Site Energy Use Intensity). [Learn More about confounding meters for performance metrics.](#)

Energy Meters

Select all meters to be included in your Energy metrics. (Hint: All meters should be included unless they are *sub-meters*.)

<input type="checkbox"/> Name	Meter ID	Type
<input checked="" type="checkbox"/>	Electric - Grid Meter 8861774	Electric - Grid
<input checked="" type="checkbox"/>	Natural Gas 8861796	Natural Gas

Total of 2 meter(s). Tell us what this represents:

These meter(s) account for the total energy consumption for [Test High Use Apartments \(ID 49769\)](#) (a single building).

These meter(s) do not account for the total energy consumption for [Test High Use Apartments \(ID 49769\)](#) (a single building).

Apply Selections cancel

5. Select Permission Levels for Other Web Services Providers

If you are using other automated data services (such as Seattle City Light), then you will be given the option to allow other utilities to view your PSE meter data.

- ❑ On the **Share Additional Meters with Web Services Provider** page, select “None” on the **Puget Sound Energy MyData** tab.
- ❑ Select **Apply Selections and Authorize Exchange**.

Use Portfolio Manager | E... ENERGY STAR Portfolio M... +

https://portfoliomanager.energystar.gov/pm/shareNewMeters/5236664?testEnv=false

Welcome TO SCANO: Account Settings | Contacts | Help | Sign Out

ENERGY STAR® PortfolioManager®

Congratulations! Any energy meters you selected have been successfully associated to your property(ies).

Share Additional Meters with Web Services Provider

You have successfully created additional meters for your property. We notice that your property is shared with companies that exchange data directly through Portfolio Manager web services. If you want these companies to be able to access/edit your new meters, you must share these meters directly with them. If you do not wish to grant access to this meter, please select "None" as the permissions level and the meter(s) will not be shared at this time. To share in the future you will need to select "Edit Contact's Permissions" from the Sharing table on the Summary tab for your property.

Select the permission levels you would like to grant each web services provider below:

Puget Sound Energy MyData

The following information is required by Puget Sound Energy MyData in order to provide service to your property(ies). If you have questions about how to complete this information, please contact them directly.

3C ENWAVE SEATTLE (SEATTLE STEAM) DATA EXCHANGE

Phone (206) 658-2025
Website www.enwaveseattle.com/energy-star-reporting.htm
Email mlowe@EnwaveSeattle.com

ENWAVE SEATTLE CUSTOMERS: You will need to complete a few simple steps to begin automated Portfolio Manager reporting with Enwave Seattle. Detailed instructions can be found in your online Enwave Seattle customer portal.

- Log in to your online Enwave Seattle/UtilityStudio account and complete the Enwave Seattle Authorization Agreement, in the “ENERGY STAR Reporting” link. If you do not know your username and password for your Enwave Seattle account, or if you have any questions, please contact Marco Lowe at Enwave Seattle, at 206-623-6366, or mlowe@EnwaveSeattle.com.
- In ENERGY STAR Portfolio Manager (PM) create your account and complete the setup for your facility. In this step, you will create the steam meters that represent all of your steam usage in your facility. If you are a multi-site account, you will create a facility and meter setup for each building in your account. If you already have a PM account, please confirm your steam meter setup, for each facility.
- When defining your steam meters in PM, create meters for EACH billing meter listed on your Enwave Seattle invoice, including any meters listed as Non-Metered. Define each meter, using the Energy Type = District Steam and the Units = kLbs.
- In your PM account, add a CONTACT to establish a connection with Enwave Seattle Energy Star Reporting Services.
- Request Data Exchange Services by “Sharing” your property and setting permissions for each steam meter to “Full Access”.
- You will receive confirmation of your request from Portfolio Manager and Enwave Seattle. Reporting will begin for your facility by the 15th day of the next billing month. Enwave Seattle will load the most recent 2 years of usage data for each meter, and will continue to update the steam meter usage data each month.

Continue to Step 4 →

STEP 4 Confirm Energy Use Intensity (EUI)

A Site EUI ending December 31 for the required year must be available to report to the City. The EUI indicates the energy use per square foot per year (kBtu/sq. ft.) and can be used to compare the building's energy use to other similar building types.

Accurate Reporting:

Buildings with unusually low or high (outlier) EUIs or other errors will be flagged for accuracy and may be issued a warning letter to make corrections.

- Under the property **Summary** tab, verify that the building has a **Site EUI** and **ENERGY STAR** score (if available) for Current (Dec 20xx) reporting year. *Contact Help Desk if missing.*
- The **ENERGY STAR score** must also be listed (if eligible) for your property type, such as Office, Multifamily (20+ units), Retail, Warehouse. See Appendix A.

Metrics Summary		Change Time Period	
Metric	Dec 2014	Current (Dec 2015)	Change
ENERGY STAR score (1-100)	76	76	N/A
Source EUI (kBtu/ft ²)	95.3	100.6	5.3(5.6%)
Site EUI (kBtu/ft ²)	30.3	32.0	1.7(5.6%)
Energy Cost (\$)	17,535.24	17,628.00	92.76(0.5%)
Total GHG Emissions (Metric Tons CO2e)	113.7	120.0	6.3(5.5%)

PRINT STATEMENT OF ENERGY PERFORMANCE

- Go to the **Reporting** tab and choose **Statement of Energy Performance**.
- Select the property name.
- Select **Timeframe: Single Year** ending **Dec of the required year**.
- Select contacts (optional).
- Click **Generate & Download Report(s)** and a PDF of the report should appear. (If your web browser has pop-up blockers, disable them if the report does not appear.)
- Confirm that the **Statement of Energy Performance** lists a **Site EUI** for **Year Ending: December 31, [required year]**. (See next page for an example.)
- Save** and print a copy for your records.

NOTE If the building *does not* have 12 months of utility data ending in that December, Portfolio Manager will generate an error message like this:

Select Timeframe for Report(s)

You have selected a year ending date that does not have 12 months of data. Please select another date.

Timeframe: Ending

If you get an error, and are sure that all the energy meters have a full year of data ending December 31st, contact the Help Desk for assistance.

About the Statement Energy Performance

The **Statement of Energy Performance** is a quick reference for sharing your building's energy use as indicated by the **Site EUI**—required by Seattle law of building owners if requested by current and future tenants, buyers or lenders. Although not required by Seattle, the document is also used to show ENERGY STAR-certified buildings when verified by a professional engineer.

ENERGY STAR® Statement of Energy Performance

LEARN MORE AT energystar.gov

84
ENERGY STAR® Score¹

Ocean Vista Offices

Primary Property Function: Office
Gross Floor Area (ft²): 50,000
Built: 1999

For Year Ending: December 31, 2012
Date Generated: July 23, 2013

1. The ENERGY STAR score is a 1-100 assessment of a building's energy efficiency as compared with similar buildings nationwide, adjusting for climate and business activity.

Primary Contact
Nicole Ballinger
123 1st Ave.
Seattle, WA 98124
000-000-0000
nicole.ballinger@seattle.gov

Energy Consumption and Energy Use Intensity (EUI)

Site EUI	Annual Energy by Fuel	National Median Comparison
42.5 kBtu/ft ²	Electric - Grid (kBtu) 2,125,676 (100%)	National Median Site EUI (kBtu/ft ²) 69.1
Source EUI		National Median Source EUI (kBtu/ft ²) 216.9
133.5 kBtu/ft ²		% Diff from National Median Source EUI -38%
		Annual Emissions
		Emissions (MtCO ₂ e/year) 233

Some types of buildings are eligible for this 1-100 score that compares the building's energy efficiency to similar buildings nationwide. A higher score indicates a more efficient building. A 75 or higher may be eligible to apply for ENERGY STAR certification.

Buildings benchmarked correctly should have a Site EUI, which shows the building's energy use per square foot per year. A lower score indicates a more efficient building.

Make sure the date is December 31 for the required reporting year.

STEP 5 Add the City of Seattle as a Contact

- ❑ Click on the **Contacts** link in the upper right hand corner of the screen.
- ❑ Click **Add a Contact** to search for users that you can connect with.
- ❑ In the **Username** field, type in "SEATTLE.GOV" and click search.
- ❑ From the **Search Results** page, select **City of Seattle Annual Reporting** and click connect.

Welcome NICOLEBALL: Account Settings | **Contacts** | Help | Sign Out

MyPortfolio | Sharing | Planning | Reporting | Recognition

Search Results

The results of your search are listed below. Clicking "Connect" will send a request to the person asking them to confirm your request to add them as your contact. If they accept, you will see them listed as a connected contact in your address book. If they do not accept, or have not accepted yet, you will see them as an unconnected contact in your address book. Connecting with contacts will make it easier to share property information within Portfolio Manager.

Your Search Criteria

Name:

Username:

Email Address:

<input type="checkbox"/>	City of Seattle Annual Reporting	<input type="button" value="Connect"/>
<input type="checkbox"/>	City of Seattle Energy Benchmarking Ordinance with City of Seattle Annual Reporting	<input type="button" value="Connect"/>

Send a Connection Request to [City of Seattle Annual Reporting](#) to Begin Exchanging Data

[City of Seattle Annual Reporting](#) requires the following information in order to exchange data with your property(ies). If you have any questions about how to complete this information, please [contact City of Seattle Annual Reporting](#). Once your connection request has been accepted, you can share individual properties and/or meters with them to get started exchanging data.

Contact Name: Example: John Smith
First and last name of the contact associated with this account. - Characters

Contact Email Address: Example: jsmith@youremail.com
Please provide an email, so that we may contact you with questions or program updates. - Characters

Contact Phone: Example: (206) 727-8484
Please provide a phone number (including area code), so that we may contact you with questions. - Characters

Terms of Use: I understand, on behalf of Customer, that the EPA requires information about Customer's facility (which Customer will provide directly to the EPA). Customer's monthly utility billing data, and other data as may be required by EPA's ENERGY STAR Portfolio Manager application in order to calculate Customer's benchmarking data and rating. This information will help Customer track the energy usage and efficiency of its facilities. I authorize, on behalf of Customer, the annual reporting of Customer's energy consumption data, building square footage, and other characteristics as may be required to fulfill the requirements of Section 22.920 of the Seattle Municipal Code and Director's Rule DR 6-2011. I also authorize, on behalf of Customer, the City of Seattle to electronically transfer such data from the EPA's ENERGY STAR Portfolio Manager application. This data transfer is at the request and on behalf of Customer and as such, Customer agrees to release and hold harmless the City of Seattle from any liability, claims, demands, causes of action, damages or expenses resulting from any release of information or data from the EPA's ENERGY STAR Portfolio Manager application pursuant to this authorization. I understand that the City of Seattle will not publicly post information about the energy performance of individual buildings. Any questions the City receives related to a building's energy performance will be referred to the building owner. In addition, to respect concerns for the disclosure of energy consumption information related to any single individual or business process, all energy data reported to the City of Seattle will be aggregated across an entire building or sub-building - it will not include individual meter readings, or any information related to the operational characteristics of a building, such as hours of use. However, under Washington State Law (reference RCW Chapter 42.56, the Public Records Act) all records received or created by the City of Seattle are considered public records. Public records include annual energy consumption reports as required under Seattle Municipal Code SMC-22.920. The Public Records Act (PRA) requires that public records must be promptly disclosed by the City upon request unless the PRA or other statute specifically exempts records from disclosure. While it is not a legal obligation, the City may exercise its discretion to provide notification of a public records request to the subject of the records, and allow a reasonable amount of time for the subject of the records to pursue a court injunction preventing release.

Agreement: I agree to my provider's ([City of Seattle Annual Reporting](#)) Terms of Use.

Once your request is accepted, continue to Step 5 →

STEP 6 Share Building with the City of Seattle

- ❑ After you are connected to City of Seattle Annual Reporting, **share your property** and associated meters with the City of Seattle.
- ❑ Go to the **Sharing Tab** and click **Share (or Edit Access to) a Property**.
- ❑ Select the properties to share with **City of Seattle Annual Reporting**.
- ❑ Under **Choose Permissions**, select the second option: "Personalized Sharing & Exchange Data." Click **Continue**.
- ❑ On the next screen, choose **Exchange Data** for each property.

Share Your Property(ies)

Sometimes it's really important to be able to share your property with someone else. Maybe they need to know information (perhaps automatically) or process applications for recognition. If this sounds like what you want to do, you'd like to share and who you'd like to share with them.

1 Select Properties to Share

We'll get into the details of the level of access later. For now, which properties do you want to share?

Multiple Properties [Selected Properties: 2](#)

2 Select People (Accounts) to Share With

Which people (accounts) do you want to share these properties with? The access for each can be different and you'll be able to specify that on the next page.

Select contacts from my contacts book:

Annual Reporting, City of Seattle
Stevenson, John

To select multiple contacts, hold down your Control (CTRL) key and click on each selection. Only your connected contacts appear in this list.

Name (ID)	None	Read Only Access	Full Access	Custom Access	Exchange Data
▼ ID49690: TEST BUILDING 2 (3620234)					
Annual Reporting, City of Seattle	<input type="radio"/>				<input checked="" type="radio"/>
▼ ID49691: TEST BUILDING 3 (3620235)					
Annual Reporting, City of Seattle	<input type="radio"/>				<input checked="" type="radio"/>

- On the Access Permissions page, enter the **City of Seattle Building ID** (this number is 1-5 digits and is not the Portfolio Manager Building ID). Find the number of the notification or warning letter. Contact the help desk if missing.
- **IMPORTANT: Select the Access Permissions as follows:**
 Property Information: **Read Only**
 All Meter Information: **Read Only**
 Goals, Improvements: **Read Only**
 Recognition: **Leave as None**

Select Data Exchange Access Permissions to [ID49690: TEST BUILDING 2](#) for [Annual Reporting, City of Seattle](#).

[Annual Reporting, City of Seattle](#) requires the following information in order to provide services to your property(ies). If you have any questions about how to complete this information, please contact [Annual Reporting, City of Seattle](#).

City of Seattle Energy Benchmarking Building ID: Example: 1147

Building identifier provided by the City of Seattle Energy Benchmarking program (NOT your Portfolio Manager Building ID). If you do not know your City of Seattle Building ID, contact (206) 727-8484 or click on "More Information" below.; Between 1 and 5 Characters [More Information](#)

Please select the permission level you would like to grant [Annual Reporting, City of Seattle](#) for [ID49690: TEST BUILDING 2](#) for each category:

Item	None	Read Only Access	Full Access
Property Information	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
▼ All Meter Information	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Electric Grid Meter	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

(You may need to scroll down to view all the information.)

- Scroll down. For **Share Forward**, select "No".

NOTE If you have more than one building do the above steps for each building.

Name (ID)	None	Read Only Access	Full Access	Custom Access	Exchange Data
▼ ID49690: TEST BUILDING 2 (3620234)					
Annual Reporting, City of Seattle	<input type="radio"/>				<input checked="" type="radio"/> Edit
▼ ID49691: TEST BUILDING 3 (3620235)					
Annual Reporting, City of Seattle	<input type="radio"/>				<input checked="" type="radio"/> Edit

- Click **Apply Selections & Authorize Exchange**.
- When complete (for all buildings you are sharing), click **Share Property(ies)** again.
- **Tomorrow**, look for a confirmation email from the City for each building shared.

NOTE If you do not get an email tomorrow, please check your "spam" or "junk" folder for it. If missing, contact the Help Desk.

IMPORTANT It is the responsibility of the building owner on record to confirm accurate annual compliance. Reports with unusually low or high (outlier) EUIs or other errors will be flagged for accuracy and required to make corrections.

Appendix A

Property Use Details Worksheet for ENERGY STAR Eligible Buildings

The property types on this worksheet are eligible to receive a 1 - 100 **ENERGY STAR** score, which is used to compare the property to similar properties nationwide and locally. If your building type is listed below and can receive a rating, the use details for it below are required for Seattle's law and when applying for ENERGY STAR certification.

Please Note:

- Some buildings have multiple uses (e.g. office, data center, and parking). Complete the fields below for each major use in the building.
- Actual values for space details (i.e. operating hours, number of bedrooms, etc.) are required for reporting. "Default values" can only be used temporarily.
- If your building type is not listed below, it will receive an **Energy Use Intensity (EUI)** score, which is a measure of the energy use per square foot. These buildings are only required to list gross floor area.

Tip: For buildings with multiple tenants with the same use (i.e. several offices), enter the uses separately *only* when the total weekly operating hours among tenants differs by more than 10 hours.

Appendix B

Entering Utility Data Manually into Portfolio Manager

If you only have a few meters serving your building and prefer to hand enter the data, this option may work. We don't recommend it for multifamily or commercial with many tenants, as you will need get permission from all tenants to collect their bills.

- Log in to your **Portfolio Manager** account and click on your property.

1. Add Energy Meters

- In your Property Profile page, click on the **Energy** tab and select **Add A Meter**.
- Select the **types of fuel** in your facility. For each type, enter the number of meters for that type. Click **Get Started**.

The screenshot shows the 'Sources of Your Property's Energy' form. It asks how the property acquires energy and provides several options with checkboxes and input fields for the number of meters. The 'Electric' and 'Natural Gas' options are selected. The 'Electric' section includes 'purchased from the grid' (selected) and 'generated on site with my own solar panels' and 'generated on site with my own wind turbines' (unselected). The 'Natural Gas' section includes 'Natural Gas' (selected) and 'Propane', 'Fuel Oil (No. 2)', 'Diesel', 'District Steam', 'District Hot Water', and 'District Chilled Water' (all unselected). There is a link to 'See more energy sources?' at the bottom.

- On the **About Your Meters** section, click in the table to enter meter details.

- Select the **correct unit** for the fuel type:
 1. Seattle City Light Electric = kWh
 2. Puget Sound Energy Natural Gas = Therms
 3. Seattle Steam = kLbs
- **Enter the Date Meter Became Active.** This is the date that the first bill was issued for the meter. (Note: if you are unsure of the first bill date, use your best guess).
- Select **In Use** if the meter is currently in use.
 - Leave the **Date Meter Became Inactive** empty since meter is currently in use.
 - Only select **Enter as Delivery** if the energy source is delivered to you, such as fuel oil or propane from a truck, as opposed to metered usage.
- If you need to add another **meter**, select **Add Another Entry**.
- When done entering meters, click **Continue**.

2. Enter Energy Usage

- On the next page, click in the table to **enter the bill dates and usage** for each month (cost is optional). Click **Add Another Entry** to add more months.
- Once you have entered at least 12 consecutive months of data for the year required, click **Finish Meter Set Up**.
- On the next page, select the meter(s) to be included in the energy metrics.
- Then select “These meter(s) account for the total energy consumption for this property” and click **Apply Selections**.
- You will be taken back to the **Property Profile** page.
- **Continue with Steps 4-6** to finish benchmarking and report to the City of Seattle.
