

It has been brought to SPR's attention that on page 14 of the RFP document it is indicated that copies of the proposal should be "bound", but that page the 15 RFP document indicates that hard copies of the proposal should be in "a three ring binder, 4 inches or less, with tabs." This contradiction has created some confusion. Because the RFP document is unclear, proposers may submit copies of their proposal in either 3 ring binders or in bound form; both formats will be accepted.

All nine (9) copies of proposals submitted, whether in Bound or three-ring binder format, should have pages numbered sequentially, include a copy of the authorizing signature page(see page 12 of RFP document), and placed together in a box or sealed envelope clearly marked indicating that it contains responses to the Building 2 RFP.

All proposals must be received by 4:00 p.m. on Friday, June 3, 2016 at the address indicated on page 5 of the RFP document.
