¹ Based on 2016 data/estimates from the US Census.

² In the United States, people of color and low-income earners typically occupy the urban core and/or low-income inner ring suburbs where green space is either scarce or poorly maintained. Wealthier households often reside on the suburban periphery where greenspace is abundant, well-served, and well-maintained (Heynen, Perkins, & Roy, 2006).

³ Population 18 years and over.

⁴ Families receiving Supplemental Security Income (SSI), cash public assistance income, or Food Stamp/SNAP benefits.

⁵ Park proximity plays an important role in promoting higher levels of park use and physical activity amongst diverse populations, particularly for youth. (NRPA, 2014)

⁶ Population 16 years and over.
