More information visible

Make free wi-fi and safe and clean

Would like the park open 24 hours

This park has been here ever since I moved here in the United States. This was my childhood, playing chess with seniors and attending events.

Features for photo opportunities

I feel the park should be open with little to no shrubbery. It should include exercise equipment for seniors and families that live in small apartment spaces.

Plant more flowers and trees.

I want a swing, free wi-fi, basketball court, community center, a Hooters, a coffee space

I only go for events

I mainly hang out a bit during events. It could be a great urban park if it had more intimate, naturally sculpted spaces. Seattle doesn't really have such parks. The models for me are countless parks in Manhattan, from the little wedges to Washington Square, they are of the city, open to the city, but when you sit next to a stranger on a bench to read, it's just you and your book.

To exercise

When some organizations hold some volunteers, we may meet in that park.

IMPORTANT:

Plaza 33	Walk Paths 24	Stage 18	Play Op 28	Trees 22	Plantings 13
Tables/Chairs 30	BBQ 19	Sculpture 13	Movie Screen 20	Pergola/Canopy 14	Game Tables 16
Bike Racks 17	Exercise Equip 21				

Other: A large flat performance area, covered, (retractable/removable if possible) for rainy day use with seating that allows everyone to see the performance. Open space with visibility to promote safety 24/7.

Free wi-fi and rooms for small family or friends

Please put in exercise equipment similar to what they have in many parks in China.

Some more intimate spaces

Plants, trees and flowers. Have a playground for the kids.
