1. Lawn needs to connect to Park
2. Seating eddy does not do enough
3. Play area is constrained
4. Undetermined root wad feature
5. Hidden corner in play area
SITE PLAN UPDATE

1. Open up lawn to park w/ flush transition
2. Create strong seating edge fronting lawn
3. Remove eddy and expand play area
4. New central play feature
5. New forest scramble
The Denny Regrade. The expansive earth moving, cutting, terracing, and resulting topography. The displaced homes and the architecture of this transition.

We take this opportunity to represent and recall this historically significant and visually stunning period of Seattle’s development. As the Denny Triangle again finds itself within a period of unprecedented transformation and growth, we seek to offer a poetic gesture - a tribute to this incredible epoch in what seems like our distant past.

The Park can become a living room for gathering, relaxing, people watching, and playing as well as a venue for historical interpretation. With such a prominent location in the City, we are excited to generate a strong sense of place through the Park design.
The Two Storey Play House offers two rooms and basic furnishings like a table and benches for role play such as family, mother and child and neighbourly play activities on two levels. There is a furnished basement with window and a ladder leading to the upper area.

Fundamental characteristics:
- Child proportions according to ergonomic requirements
- Appealing design by: solid wooden roof, proportion between closed and transparent walls, child-orientated rooms
- Natural wooden surface which appeals to the senses
- Incentive for playing: two storeys, veranda, furnishing on both play levels

Suitable:
- For older than, but also suitable for children under 3 years
- For public playgrounds
- Playgrounds situated near houses
- Nurseries
- Children’s homes
- Therapy institutions for children
- School playgrounds
- Leisure areas
