IS YOUR BUSINESS IN A UnReinforced Masonry?

WHAT'S A URM?
A URM (Unreinforced Masonry) is a brick building where the floors and roofs are not structurally connected to the walls.

SIGNS INCLUDE
CLASSIC RED BRICK
ARCHED WINDOWS
ROW OF BRICK ENDS

Ask your landlord if the URM building has been retrofitted to strengthen the walls and floors during an earthquake.

Know if the landlord has insurance coverage and emergency planning for tenants.

Purchase earthquake insurance if you can afford it.

Create a continuity plan for your business during a time when the building may be closed.

Teach your employees how to be safe (Drop, cover, and hold).

There are approximately 1000 URMs in Seattle

SAFETY IS EVERYONE'S RESPONSIBILITY
Did you know that SEATTLE is in an earthquake zone?

SEATTLE IS AT RISK FOR THE BIG ONE

In the next 50 years our region has an 84% chance of an earthquake of magnitude 6.8 OR GREATER!

WHAT HAPPENS TO A URM DURING AN EARTHQUAKE?

Walls pull away from floors and roofs.
Walls partly or fully collapse, resulting in falling brick.
A building can collapse and cause injury and destroy the building and its contents.

URM MYTHS

MYTH: IT SURVIVED THE LAST EARTHQUAKE, IT’S FINE!
TRUTH: Unseen damage from past earthquakes is compounded by the next one, which could be stronger.

MYTH: I DON’T OWN THE BUILDING, I CAN’T DO ANYTHING.
TRUTH: You can be prepared and know what to do when it happens. See the back page to learn what you can do to protect your business and employees.

MYTH: IT WON’T HAPPEN HERE IN MY LIFETIME.
TRUTH: It could happen anytime, that’s the nature of earthquakes, but you can be prepared.

MYTH: THE GOVERNMENT WILL TAKE CARE OF ME.
TRUTH: Government aid doesn’t cover everything. Many businesses never reopen.

75% OF BUSINESSES CLOSE IF NOT REOPENED WITHIN A WEEK OF AN EARTHQUAKE

A loss of income during a disaster can cause you to lose valuable employees. Retrofitting can speed up recovery and get your business open sooner.
