

Northgate Ped/Bike Bridge Project

Seattle
Department of
Transportation

We heard from almost 200 of you through our August open house and survey, and are excited to share the results.

Thanks to your participation online and in person, we received feedback about design elements and project goals, and gained a better understanding of how people plan on using the bridge. Take a look at the [open house summary](#) for a more detailed report of the data and results.

Stay involved

We'll be back in touch later this fall about more ways to stay involved in the project.
