NE 65TH ST VISION ZERO PROJECT

In February, we hosted a neighborhood transportation forum to tell you about transportation investments being made in your neighborhood and to listen to your concerns and needs for getting around your community. We heard you, and we are ready to share our proposed street design concepts to improve safety for all modes along NE 65th St.

Join us on **Thursday, May 18**, at our second forum to learn about our proposals and share your feedback. We want to hear from you. Together we'll determine the future of NE 65th St.

Can't make it? Review the proposed design concepts and share your feedback via our survey, which will be live on our website on May 18.
