

City of Seattle

Public Utilities Department of Construction and Inspections

Notice of Rulemaking

Under the authority of Seattle Municipal Code 3.02.030, 3.06.040, and 3.32.020, the Department of Construction and Inspections (SDCI) and Seattle Public Utilities (SPU) propose to revise Director's Rule DWW-200/17-2017, the Stormwater Manual. We request the public's review and input.

The rule would support implementation of the City of Seattle's Stormwater Code (SMC 22.800) and provide specific technical requirements, criteria, guidelines, and additional information.

The full text of the current rule can be found at <https://bit.ly/3s1oHy2>.

The proposed draft for DWW-200/10-2021 and a summary of changes are available at <https://bit.ly/3vzioDZ>.
