Starting in January 2014: Remember to recycle me!

Asphalt Paving

Bricks

Cardboard

Concrete

Metal

New Gypsum Scrap
Starting in 2014:

Recycling Requirements for Construction Projects in Seattle

You will now be required to recycle the following from your construction material loads:

- Asphalt Paving
- Bricks
- Cardboard
- Concrete
- Metal
- New Gypsum Scrap

Also, you are required to complete some or all of the following documents for permitted projects:

- Waste Diversion Plan
  - Prior to receiving a building permit
  - For projects over 750 square feet

- Salvage Assessment
  - For demolition projects

- Waste Diversion Report
  - For projects permitted after January 1, 2014
  - For new construction and alteration projects valued at $30,000 or greater
  - For all demolition projects
