

Status Check

Seattle Citizens Assess Their Communities and Neighborhood Plans

Summary of the Rainier Beach Neighborhood Discussion

Status Check: How is Your Neighborhood Doing?

Prepared by
Seattle Planning Commission
October 2009

What is this report?

This report contains summaries prepared by members of the Seattle Planning Commission. These summaries document discussions co-facilitated by members of the Planning Commission and the Neighborhood Plan Advisory Committee (NPAC) at a series of neighborhood meetings held in June and July of 2009.¹ The Commission and NPAC co-hosted five open house workshops that included 24 neighborhood specific breakout sessions.² In all, about 350 people participated in the five open house meetings.

The Commission was asked to provide a summary for each of the 24 neighborhood specific breakout sessions. The summaries will help City staff to complete the Status Reports and will be a part of the "State of the Neighborhood Report" that goes to the Mayor and Council at the end of the year.

The Commission and NPAC developed four questions so that we could gather information from the people who live, work, attend school and have businesses in the neighborhood to better understand perceptions about the neighborhoods and how well the neighborhood plan is doing. Participants at the meetings were grouped by neighborhood and asked these four questions by the NPAC co-host while the Commission co-host worked to capture the sentiments of the participants. Participants were also provided questionnaires that contained the same four questions and were encouraged to fill them out and return them to be included in the record. All of the original questionnaires returned from the open house workshops are contained in the appendix of this report.

Outreach and Interpretation

The City of Seattle's neighborhood planning team arranged for interpretation services to the communities often under-represented because of language barriers. Spanish interpretation was available at 14, Chinese interpretation was available at 4; Vietnamese interpretation was available at 6; and Tagalog interpretation was available at 3 of the neighborhood community discussions. Interpretation services were used at 4 of the neighborhood community discussions: Columbia City, Georgetown, Rainier Beach, and the West Seattle Junction.

Virtual Meeting

In an attempt to broaden participation, the Planning Commission also created and hosted a virtual on-line meeting from June through August. The virtual on-line meeting included a questionnaire that asked the same four questions that participants at the open houses were asked. The on-line questionnaire had a total of 4,576 participants. The Commission has provided a companion piece to this report that includes the responses to the on-line questionnaires for each of the 24 neighborhoods.

-
1. The Seattle Planning Commission (SPC) was adopted into the City Charter in 1946. The Commission is an independent and objective group that advises the Mayor and City Council on Urban Planning issues such as land use, zoning, transportation and housing issues.
 2. The Neighborhood Plan Advisory Committee (NPAC) was formed in 2008. NPAC is a committee of Seattle residents and business-people that advises the Department of Neighborhoods and the Department of Planning and Development on conducting the neighborhood updates and neighborhood status reports.

RAINIER BEACH

General Summary

There was a small group at the neighborhood discussion and people felt that communication about the meeting was lacking. The conversation was very agreeable. A couple gentlemen had been in the neighborhood since the 1950's and witnessed many ups and downs. Others were brand new and saw great hope in renovated parks and the numbers of children in the neighborhood. Most of the people at the table do not actually live in the yellow lines of the Urban Neighborhood because the residential areas are outside it. The group did not represent the full flavor of diversity that the community offers as a whole.

Highlights

Parks are greatly improved and are a gem for the community: Kubota, Beer Sheva, Pritchard Beach, and Dead Horse Canyon are favorites. The development of the Southshore School complex is great. Commercial development is grossly lacking and requires immediate attention.

1. Most of the neighborhood plans were adopted about 10 years ago and are in their mid-life. How has your neighborhood changed in the last decade since the plan was adopted, (or since you've been there)?

- Tremendous and positive change in sense of safety, less graffiti, feel more connected to neighbors, people used to be afraid to cross the street. (This was echoed repeatedly).
- Light rail.
- Multifamily development at New Holly.
- Some institutions growing (e.g. South Shore School)—schools help build community making it more sustainable.
- Parks are greatly improved (e.g. Beer Shiva, Dead Horse Canyon, Kubota Garden).
- More children and families engaged in parks and out on streets and visible.
- We have a long way to go to get back to the way the neighborhood was in 1959.
- “The auto junk yard” at Rainier and 57th needs to go away.
- Multigenerational poverty continues.
- The “entrance” to Rainier Beach is worse than it was 10 years ago.

2. What changes or aspects of your neighborhood are you most pleased about?

- Light rail station was done in a visually appealing way.
- Department of Planning and Development changed zoning on Rainier to NC3.
- Performing arts center at Rainier Beach High School.
- Improvement in parks.
- Improvement in public safety.

Most dissatisfied about?

- Transportation. Bus system was good but is being destroyed. Bus transit does not connect to light rail. It does not work in my neighborhood without parking. Some small business was hurt by the construction and light rail in general.
- There is a reluctance of businesses to move in here. QFC moved out, Auto parts store moved in.
- Business district is frustrating. Businesses move in but don't stay.
- Need more to stop violence among youth: RB Community Center is open late night only two times per week. We need late night activity for youth e.g. skating or turning the old Pancake House into a place for young people.
- Economic development has to include real jobs. The industrial zoned area on Martin Luther King south of the light rail station should be rezoned to commercial.
- Lack of design standards. We need to hold developers accountable.
- Disappointed in the Henderson Boulevard development project. The Mayor is moving community dollars for use in Paul Allen developments.
- Lots of wasted space.

3. How well are your Neighborhood Plan vision and key strategies being achieved? Are they still the priority?

- **Henderson Street: Building a Better Boulevard:** Henderson Boulevard not done according to plan. Should be zoned NC1. Worry about Rainier Avenue with light rail and new development moving to Martin Luther King. Need to pay attention to the design of the community center.
- **“Beach Square” Commercial Core revitalization:** Where is Beach Square? Underutilized and vacant land needs to be developed. We need to bring property owners into a room with community members not just shop land to big developers. We need to pound on the doors of the Office of Economic Development to bring economic and community development to Rainier Beach.
- **Community Education: The Building Block of the Future:** Not promoting education the way we should be. Only partial renovations at Beach High School, we’re losing kids, RB has never been an academic center. Don’t close our school (RBHS) which is part of the community; good schools are how we attract families into the community.
- We need more accountability from city on what has been accomplished. Rainier Beach must be one of the next three plans to be updated.

4. The city is completing neighborhood plan status reports focusing on demographics, development patterns, housing affordability, public amenities and transportation networks. What should there be more focus on (or less focus on) as the neighborhood status reports are completed in the coming months? Are there any important gaps in the draft status report?

- The data does not represent the many people who live just outside the “yellow lines” of the Urban Village but who (would) shop and use the resources and services of the area.
- What story do the data tell us? This should be more explicit.
- “Softer” data and positive indicators: How much park land is there (including Chief Sealth Trail)? Local (resident) grown food and pea patches? Cultural associations? Health and Quality of Life measures.
- The biggest gap is in the focus on the people: We are part of the city. Need city support in organizing local groups. Do not impose but nurture grassroots to grow and rise up to do empowering things.

Note: At least two participants expressed concerns about the outreach or lack thereof for the meeting.

RAIMEL BEACH
COMMUNITY MEETING

7-27-09

2 concerns about outreach for meeting
Thanks for coming to 'hood - more often

- 1) How has neighborhood changed?
 - Tremendous change (fence no longer gets together) focus on safety; feel safer more connected to neighbors: Light Rail like R.R. after last S-C nos.
 - Multifamily Dev. New Holly; some institutions growing → ideas about focus and tweets on complan.
 - Parks focus Kabota for years significant improvements of all parks Beer Sheva Nead Horse Canyon: # of families / child increased a lot at B.S. park and "out door" activity + more housing.
 - Crime rate terrible in 88-89: community supporting each other | people would not walk across street @ what was S@ SAAR - beautiful Park, safer to walk up street Safer Neighborhood / new schools help build com. making it more sustainable before people were afraid to come to R.R. Coalitions working in community.
 - Lived here since 1951 have it a long way to go to get it back to → encourage that we all get involved in community.

①

RB Community (cont.)

Rainier Beach continues to do its part to make = mention of Jim Revalino's death. Auto/Junk yard @ Renton and Henderson needs to go away. Junk Auto shops @ 57th & Rainier. Entrance of RB worse than it was 10 years ago.

- Multi generational poverty. Need more around multi gen poverty.

2. What are / aspects are you most pleased of? Dissatisfied?

- Light rail does not work for my neighborhood: No mitigation, no parking. Per comp plan - where there is no economic needs + last plan needs to focus on infrastructure of sidewalks, wifi, incubator space for small business. Teeth in how are implemented.

Focus on Economic Development: Industrial land should be up zoned to commercial line work in RB. need more on Econ Dev. Design standards. Hold developments accountable. Our responsibility.

New BBR place @ Renton @ Henderson
No parking @ Station

(2)

RB Community (Cont.)

- Dissatisfied about trans. bus system was good being destroyed. DPD chgt CI to NC3 from Empire way to Seward / 57th. Get a lot of MF dev. on Henderson.
- Q of FC mood out true is a reluctance of business people to come out here. Auto parts store ALL BAD
- Parks / Open Space; Performing arts Center @ R Beach H.S. Pleased about Light Rail. Pleased about ~~to~~ what was done visually. Some small bus heat but some helped. Safety improved. Business district is frustrating come a Bot don't stay.
- Questions about transit connecting to light rail. Station spacing - will need tweaks. Retail does not = economic dev. because of wages
- Parks nice: families kids. Need more stop, violence among youth; RB com center late night only twice per week. Need late night por. for bus for youth. Kids have to go to Sky way. Innovative programs: skating etc. old Pan cake House could be utilized.
- Neighbor needs to do something to engage youth and older people drawing youth into gang gang problem.

3 How well is Plan Vision ~~achieved~~ achieved? Still priority?

- Dissatisfied in Henderson Blvd project. Mayor is more community & for Paul Allen developments.
- Development on Henderson should be NC 1.
- Henderson Blvd! not done according to plan. Fret for Rainier Ave; should have a solid business strategy.
- ~~Design~~ Design of community center. Modified version of what exists.
- Not promoting education the way we should be. Only partial rehab of Beach H.S. Only one not done is RR. Losing kids because RR is old.
- Beach has never been the academic center.
- Concerned about Rainier Ave v. MCK lots of underutilized space.

4) What should we have more/less focus in new status report? What's missing

- Biggest gap is focus on people: we are part of city, governance trying to organize Dunlap comm Councils need city support (translation etc.) Do not impose but nurture grass roots to grow and rise up to do all the empowering things

④

RB Community

Justing

- 3.1. Not an industrial area Economic dev. no → except for groceries, service station → this is a residential community.
- Are renters involved in what community? Stick with the Blvd.
- Connection between statistics what story does this tell us
- Affordable child care; HS grad rates
- Softer things: How much park land / resident; local grown food; Chict health trail - Greener pieces; Peg Park Land: Health or Quality of life.
- What are positive indicators:
- Cultural associations.

* Want more accountability from city on what has been accomplished.

- 5 Some of the data does not seem to represent - but many people live outside the yellow lines.

3) Wrap up

- < It's about people and families wanting to hang out: safe attractive places → lots of wasted space

log

(5)

RB Community (cont)

- We need to shop ideas (eg Hongo restaurant)
- Traffic circles are a curse to fire dept.
- Pound on doors of OED. for "economic" community development
- Design Standards like in Queen Anne.
- RB must be one of next 3 Plan Updates
- Side walks
- Land Trusts
- Under utilized land → vacant land inventory. Not big Box development.
- Invest in process to bring property ~~own~~ owners into town w/ community not just show land to big developers.
- support our schools Don't close school (which is part of the community)
- ↳ How do these things attract families and children into our community.
- Need the right zoning No C1, C2
- Housing Affordable housing → cap as it connects to TOD.
- Piece of Rainier Ave is worst part of Rainier
