RE: Revised Permanent Use Policy for Seattle's Natural Areas and Greenbelts

Dear Mayor Murray and Councilmember Bagshaw,

In response to a request from the Thornton Creek Alliance, Parks and Recreation Superintendent Christopher Williams mentioned that Parks is working on developing a community outreach and engagement process that will provide input to values-based guidelines for the appropriate use of Seattle's natural areas and greenbelts.

Mr. Williams said that Parks hopes to finalize the project plan and schedule in this quarter and expect to ask for community participation beginning in January.

The Commission has contacted Parks staff to request our involvement throughout the policy development process. Seattle's natural areas and greenbelts are an important element of our broader city-wide 30% canopy cover goal as stated in the Urban Forest Stewardship Plan. We request your support of our involvement in this revised policy as we work together to meet the varying needs of our residents.

Sincerely,

Peg Staeheli, Chair
Seattle Urban Forestry Commission
