

## Westlake Cycle Track construction coming soon

The Seattle Department of Transportation plans to begin construction of the Westlake Cycle Track later this year. Construction is planned to be complete in summer 2016.

### WHAT TO EXPECT DURING CONSTRUCTION

- The construction team will be working primarily on the east side of the Westlake Ave N parking area adjacent to the sidewalk.
- Typical work hours are between 7 AM and 4 PM. We will communicate any changes to work hours.
- Expect moderate construction noise during work hours.
- The Westlake parking area will remain open during construction, but expect periodic lane closures and temporary parking restrictions.
- The team will work to maintain access to businesses and residences during construction.
- To keep you informed throughout construction, we are sending regular construction email updates, delivering flyers to the project area, and contacting adjacent businesses and residences individually when work is occurring in their area.
- Visit our website to sign up for updates: [www.seattle.gov/transportation/wct.htm](http://www.seattle.gov/transportation/wct.htm) and join us at a construction drop-in session (details on back).

# Design features of the new Westlake Cycle Track

The Westlake Cycle Track will designate space for people on bikes to create a safer, more comfortable corridor for people walking, biking, and driving.
