

# NICKERSON PAVING PROJECT

November 2016

## PROJECT DESCRIPTION

We plan to repave Nickerson/W Nickerson St in north Queen Anne in 2017 to make it safer and more comfortable to travel on and to extend the useful life of the street.

This maintenance project will:

- Repave and restripe Nickerson/W Nickerson St between Etruria St and 15th Ave W; restriping will maintain current street operation
- Rebuild the southbound onramp to 15th Ave W and pave an asphalt sidewalk on the north side of the onramp to connect to the Ship Canal Trail
- Pave an existing footpath under the south side of the Ballard Bridge
- Replace paint-and-post islands at 11th Ave W and Dravus St with concrete crossing islands
- Upgrade curb ramps and sidewalk corners in select locations

## BENEFITS

We know how important it is to maintain our streets and our Paving Program helps take care of the basics by rehabilitating arterial streets each year. Arterial streets are primary routes for moving people and goods through the city. They connect neighborhoods and business districts to one another and to the regional transportation network. Keeping our transportation system in a state of good repair helps lower the cost of future maintenance.

## SCHEDULE

We're designing this project in 2016 and expect to finalize design in early 2017. Construction should begin next spring or summer and will take about 6 months to complete, weather permitting.

See map on reverse.

*The 15th Ave W southbound onramp needs to be rebuilt*

## OUTREACH

We're beginning to raise awareness about the Nickerson Paving Project in fall 2016. We're reaching out to property owners, businesses, and residents in the project area to understand their needs and learn about issues we may not be aware of. Our goal is to work with the community to limit construction impacts to the extent feasible. Learn more about the project at the webpage or by contacting the project team using the information below.

Approved by voters in 2015, the 9-year, \$930 million Levy to Move Seattle provides funding to improve safety for all travelers, maintain our streets and bridges, and invest in reliable, affordable travel options for a growing city.
