

Current Design

Process

- Trail follows Preferred Alternative Route
- Extensive site analysis & study of options
- Internal & external review of proposed design
 - Discussions with property and business owners adjacent to trail
 - Discussions with neighborhood and community organizations & individuals
 - Public Open Houses

Goals

- Improve pedestrian and bicyclist safety
- Minimize impact to business operators
- Improve organization of Right of Way
- Reduce railroad track crossings for bicyclists
- Provide a bicycle trail connection between Ballard and other urban villages
- Coordinate with local projects in order to ensure trail and public space access
- Meet WSDOT requirements for Environmental Process

Balancing existing conditions with design goals
