

# Blue Atlas Cedar

*Cedrus atlantica 'Glauca'*

From the Atlas mountains of northwest Africa, this species is commonly planted because of its beautiful powder-blue needles. Old and large, this example shows well how it affords significant refreshing shade, shelters birds, and its rugged hefty limbs impress all who stand beneath it or view it from the street.

Perfectly tended by the Washington Federation of Garden Clubs, it can look forward to many more decades of serving as a lovely, large ornamental landmark tree.

Dedicated October 7, 1999, and is the first Beacon Hill Heritage Tree.

1999

**Owner:** WA Federation of Garden Clubs  
**Address:** 2336 – 15th Ave S  
**Location:** Building grounds  
**Size:** 10 feet 2 in. circumference, 82 feet tall  
**Category:** Historic AA
