

Protect Our Waters Forum: Decentralized Systems – How Do They Fit?

*Join Seattle Public Utilities (SPU) to explore this issue through multiple lenses
Including environment, economics and social equity*

Wednesday, March 25, 2015, 5:30pm – 8:30pm

Arrive at 5:30 for networking and a light meal. Program starts at 6pm.

New Holly Gathering Hall, 7054 32nd Ave S., Seattle 98118

[RSVP Here](#)

Help us think broadly about the emerging trend to manage water resources using decentralized strategies to supplement centralized drinking water, sewer and drainage systems. Our goal is to solicit your thoughts early in the process as SPU begins developing a framework for analyzing how these systems fit in Seattle. We want to do what is best for customers, community and nature. You will have a chance to participate along with the following experts:

Presenters

- **Nancy Ahern**, *Director of Utility System Management Branch, Seattle Public Utilities*
- **Steve Moddemeyer**, *Principal, CollinsWoerman*
- **Paul Fleming**, *Climate Resiliency Group, Seattle Public Utilities*
- **Mark Jaeger**, *InterAgency Project Coordination, Seattle Public Utilities*

Panelists (Lenses)

- **Chris Webb**, *Associate Engineer, Herrera Environmental Consultants (Designer / Developer)*
- **Nicole Vallesterro Keenan**, *Policy Director, Puget Sound Sage (Social Equity / Community)*
- **Rhys Roth**, *Director, Center for Sustainable Infrastructure, The Evergreen State College (Academic / Sustainability)*
- **Denise Lahmann**, *Acting Manager, Wastewater Mgmt. Section, WA State Dept. of Health (Regulatory / Public Health)*
- **John Gibson**, *President, Gibson Economics (Economics / Cost Benefit)*
