

## Henderson North CSO Reduction Project

Fall 2015

### Construction in 57<sup>th</sup> Avenue South

#### Project Overview

As part of the North Henderson CSO Reduction project, Seattle Public Utilities (SPU) will construct a 16,000-gallon storage pipe located in the right-of-way of 57<sup>th</sup> Avenue South (adjacent to Martha Washington Park) to reduce the frequency and amount of stormwater and untreated sewage that overflows into Lake Washington during heavy rain events. The storage pipe will be located within 57<sup>th</sup> Avenue South near an existing below ground pump station. The map on the reverse side shows the project area.

#### Construction Impacts

Construction is scheduled to begin in mid-September 2015 and is estimated to take approximately six months to complete. The construction area and the southeast entrance to Martha Washington Park will be closed to public use during this period. The construction activities generally include excavation and removal of the existing sewer pipe and maintenance holes within the street and installation of a larger sewer pipe and maintenance holes. Information will be provided regularly during the construction period through the project website and email listserv updates.

General impacts include:

- Parking restrictions at the southern boundary of Martha Washington Park (eastern end of 57<sup>th</sup> Avenue South).
- Regular work hours between 7:00 a.m. and 6:00 p.m., Monday through Friday. The contractor also expects to work on Saturdays in order to complete construction activities as quickly as possible. Certain activities may require longer hours on occasion.
- Increased truck and construction vehicle traffic on 57<sup>th</sup> Avenue South, near the construction site.
- The southeast entrance to Martha Washington Park will be closed (at the dead end of 57<sup>th</sup> Avenue South); however, the Park will remain open during construction.
- Noise, dust, and vibration during construction activities.
- Driveway access in the project area will not be impacted.
