

# Thank you

Thank you for joining us for the walking tour, we hope to see you at the community meeting just up the street at 12 pm (see map).

## Getting to the Community Meeting

Come to the community meeting at Hamilton International Middle School, 1610 N 41st Street, 12 – 2 pm. At the meeting you will hear a brief presentation and be asked to weigh in on station architectural elements and potential amenities to be included in the rebuild.

## How can I stay informed?

We hope the walking tour and community meeting will provide you the opportunity to share your ideas about the rebuilding of the North Transfer Station. Please feel free to submit comments to staff or in writing. Visit the project website for more information at: [www.seattle.gov/util/transferstations](http://www.seattle.gov/util/transferstations).

*Rebuilding for the Future of Solid Waste*

# Walking Tour Guide

April 2011

## Schedule

Legend ● Community Briefings ★ Fremont Sunday Market ■ Website updates

## Welcome

Thank you for your interest and participation in the North Transfer Station project! Your perspective as a neighbor, community member, or station user is important to us.

## Where are we in the rebuild process?

Seattle Public Utilities (SPU) formed a stakeholder group of station users and community members in 2008 to provide more detailed input for the design of a new transfer station. The stakeholder group and SPU have recently been working through the conceptual design process and last month the stakeholder group narrowed the concepts down to two, Concept A and Concept B.

We are here today to present you with information about each concept and receive your input. On May 16, the stakeholder group will recommend which concept will move forward. Their recommendation will consider input received today and through other community outreach.

*See back panel for schedule.*

## What will I see today?

The walking tour today will provide the opportunity for you to observe the existing conditions at the current station from many different viewpoints. At each of the five viewpoints you will see a plan view and simulated views of Concept A and Concept B for the rebuilt station. While at each viewpoint, please feel free to ask questions of staff and make suggestions on the comment form.

# Map

- Start** **Sign-in table:**  
Receive your walking tour guide and comment form before you begin your tour.
- 1 Viewpoint 1:**  
**N 34th St and Woodlawn Ave N**  
View the concept site plans, cross-sections and renderings of how the station will appear from the southeast corner.
  - 2 Viewpoint 2:**  
**Woodlawn Ave N**  
View of the concept site plans and renderings of how the station will appear from the eastern edge.
  - 3 Viewpoint 3:**  
**Woodlawn Ave N and N 35th St**  
View of the concept site plans and renderings of how the station will appear from the northeast corner.
  - 4 Viewpoint 4:**  
**Ashworth Ave N and N 35th St**  
View of the concept site plans and renderings of how the station will appear from N 35th Street. You'll also see photo simulations of the view from Ashworth Ave N.
  - 5 Viewpoint 5:**  
**N 34th St**  
View the concept site plans and renderings of how the station will appear from N 34th Street.
