

Water Availability Certificate (WAC) Request Form

Please complete and submit this form to SPUwateravailability@seattle.gov. A WAC assessment will determine if water service is available for your project/property. It may also determine that water system improvements are required for your project/property to receive water service. The certificate will be issued to the contact person listed below. Decisions for approval are guided by: _____ Our goal is to complete requests with in 5-7 business days.
