

Democracy Voucher Campaign E-mail Update: February 17, 2021

Good Morning,

Attached is the Campaign Replacement Form for 2021. You may use this form to collect signatures remotely, similar to the qualifying forms. All fields must be completed prior to submitting to our office. You can request the current list of Seattle registered voters from us by creating a GovQA request. A step by step guide for creating a request is attached. You can use this list to fill in the Voter ID.

Please keep control of this form at all times and do not just blast it out to a list or post it to your website - it should be used for residents who express intent to contribute their vouchers to your campaign but do not have their original vouchers. If you have volunteers collecting these forms or are asking folks from your campaign to pick up these forms from our office, please send us their names as representatives.

We are more than happy to review your electronic form and/or answer any questions you have.
