Update on Work Progress, Reports and Safety

Work Progress

Significant ironwork underway in the next few weeks. The project is on schedule and coordination is underway with Hoffman for Overlook Walk and Merlino on the waterfront road work. Martin received Turner's updated Social Equity Plan and will review. Continuing to dispatch where we need additional support. Met with the Ironworkers today and have a site tour planned for next Tuesday morning to get an up close and personal view of the ironwork fabrication. Great exposure for the students to see. Structural steel is mobilized, and concrete continues with tanks coming together in October. Percentage completion 36%.

Turner is still planning to crew up with life support systems and MEP for build out in the fall.

Safety

No safety incidents to report. The site is a tight space but is clean and tidy. Safety huddles every day.

Labor Compliance

Labor Day is a recognized holiday, and the wage escalation will take place in September. Please notify your subcontractors. Turner plans to send a proactive notice to the subcontractors to make the adjustment in advance. Turner does not plan to work on Labor Day.

Grievances

There are no active grievances.

Pre-apprenticeship Updates

Carpenters: Carpenter pre-apprenticeship graduates available including a sister who is available for hire. Invites will go out for two Dupont general carpentry courses in October. Carpenters want to meet with diverse workers and Turner on site to check-in about any needs Carpenters may have. Drew asked to be added to the dispatch list. They have a monthly spreadsheet of pre-apprentice grads by region. For any general carpentry, interior systems or pile driver Priority Hire needs, please contact Marianna Talbott at 206-531-5803 or mtalbott@nwci.org.

Drew with Turner made an invitation to all pre-apprenticeship programs to do site visits.

Old/Unfinished/New Business
