Customers Pursuing Seattle Certification for Fire and Life Safety System

The Seattle Fire Department (SFD) welcomes you to the Certification Section of the Fire Prevention Division. This informational packet is written to help you in obtaining certification to perform work on fire protection and/or life safety systems in the city of Seattle. For those interested in securing first time certification or prior holders of a SFD Certificate, this booklet will help you through the process.

The Seattle Fire Department certifies individuals who install, inspect, test or maintain fire protection and life safety systems per the Seattle Fire Code, Chapter 9, Section 901.4. Adherence to rules and guidelines associated with the Seattle Fire Code and published industry standards is a condition of certification. Your certificate will allow you to perform specific duties that will be listed on your SFD-issued certification card. Please note that Seattle certification is not a substitute for state certification, which may also be required.

Starting with the Table of Contents, this certification packet provides pertinent information including telephone numbers, definitions for each of the certifications, a bibliography listing materials from which the test questions are derived, criteria for the exams, fees, and limitations.

We look forward to working in partnership with you to promote the safety of those who live, work, and visit the city of Seattle.

If you have any questions or need assistance regarding our certification program, please contact the Certification Unit at (206) 386-1351.

Assistant Chief Timothy J. Munnis
Fire Marshal
Seattle Fire Department
**GENERAL CERTIFICATION INFORMATION**

This document provides our customers with information on how to obtain a certificate from the Seattle Fire Department to install, inspect, test and maintain fire protection and life safety systems in the city of Seattle.

**Types of Certifications Available**
The following categories of certifications are presently available from the Seattle Fire Department.

<table>
<thead>
<tr>
<th>Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Type AS-ITT(S)</td>
<td>Inspection and testing (except “acceptance testing”) of water-based fire protection systems - State Level ITT (Inspection and Testing Technician Certification).</td>
</tr>
<tr>
<td>Type AS-2(S)</td>
<td>Installation, inspection, testing, and maintenance of automatic sprinkler systems (including standpipes) - State Level 2 (Residential-Level Sprinkler Fitters in Group R residential buildings up to and including four stories – NFPA 13R and 13D).</td>
</tr>
<tr>
<td>Type AS-3(S)</td>
<td>Installation, inspection, testing, and maintenance of automatic sprinkler systems (including standpipes) - State Level 3 (Journey-Level Sprinkler Fitters in all buildings – NFPA 13, 13R, and 13D).</td>
</tr>
<tr>
<td>Type E-1</td>
<td>Installation, inspection, testing, and maintenance of foam and water mist fire extinguishing systems. Must maintain a NAFED engineered fire suppression systems certification and (or AS-3 or AS-2 (supervised by a journey level sprinkler fitter) certification if installing pipes)).</td>
</tr>
<tr>
<td>Type E-2</td>
<td>Installation, inspection, testing, and maintenance of carbon dioxide fire extinguishing systems. Must also maintain NAFED engineered fire suppression systems certification.</td>
</tr>
<tr>
<td>Type E-3</td>
<td>Installation, inspection, testing, and maintenance of engineered or pre-engineered clean agent, halon replacement, and spray booth fire extinguishing systems. Must maintain ICC/NAFED engineered suppression systems and/or pre-engineered industrial fire-extinguishing certification. If a water-based fire protection system is used, then the AS-3 or AS-2 (supervised by a journey level sprinkler fitter) certification is required with the E-3.</td>
</tr>
</tbody>
</table>
| Type E-4   | Installation, inspection, testing, and maintenance of pre-engineered or engineered wet/dry chemical fire extinguishing systems. Must also maintain ICC/NAFED pre-engineered kitchen fire-extinguishing systems or NAFED engineered fire suppression systems certification and AS-3 or AS-2 supervised by a journey level sprinkler fitter certification if installing water piping. (and an AS-3 or AS-2 (supervised by a...

<td>Type EG-1</td>
<td>Installation (non-electrical), inspection, testing, and maintenance of emergency generators.</td>
</tr>
<tr>
<td>Type EG-ITM</td>
<td>Inspection, testing (except “acceptance testing”), and maintenance of emergency generators.</td>
</tr>
<tr>
<td>Type FA-1</td>
<td>Installation, programming, inspection, testing, and maintenance of automatic fire alarm systems in any building. Must also maintain a NICET II certification.</td>
</tr>
<tr>
<td>Type FA-ITM</td>
<td>Inspection, testing (except “acceptance testing”), and maintenance of automatic fire alarm systems. Must also maintain a fire alarm NICET II certification.</td>
</tr>
<tr>
<td>Type FP-1</td>
<td>Installation (non-electrical), inspection, testing, and maintenance of fire pumps and controllers. Must also maintain an AS-3 or AS-2 (supervised by a journey level sprinkler fitter) certification if installing piping.</td>
</tr>
<tr>
<td>Type FP-ITM</td>
<td>Inspection, testing (except “acceptance testing”), and maintenance of fire pumps and controllers. Must also maintain an AS-3 or AS-2 (supervised by a journey level sprinkler fitter) certification if installing piping.</td>
</tr>
<tr>
<td>Type FEX-1</td>
<td>All activities relating to portable fire extinguishers including those listed in Types FEX-2, FEX-3, and FEX-4 certifications listed below.</td>
</tr>
<tr>
<td>Type FEX-2</td>
<td>Installation, inspection, testing, maintenance, charging, and recharging of portable fire extinguishers.</td>
</tr>
<tr>
<td>Type FEX-3</td>
<td>Hydrostatic testing of fire extinguisher cylinders.</td>
</tr>
<tr>
<td>Type FEX-4</td>
<td>Annual external examination of CO₂ or stored pressure fire extinguishers equipped with pressure indicators or gauges.</td>
</tr>
<tr>
<td>Type SC-1</td>
<td>Installation, inspection, testing, and maintenance of smoke control systems.</td>
</tr>
<tr>
<td>Type SC-ITM</td>
<td>Inspection, testing (except “acceptance testing”), and maintenance of smoke control systems.</td>
</tr>
<tr>
<td>Type STP-ITM</td>
<td>Inspection, testing, and maintenance of wet and dry standpipe systems. Must also maintain a WA State Level ITT. Installation of standpipes requires an AS-2 or AS-3 sprinkler certification, which also includes inspection, testing, and maintenance of standpipes.</td>
</tr>
</tbody>
</table>

**Applications**
To download an application for testing, certification annual renewal, or a replacement card, visit the Certification webpage at [www.seattle.gov/fire/business-services/certification-testing](http://www.seattle.gov/fire/business-services/certification-testing).
Applications are also available to candidates on the scheduled test day.

**Contact Us**
If you have questions or need more information, please contact us:

Fire Prevention Division Certification Unit  
Telephone: (206) 386-1444 or (206) 386-1351
The Seattle Fire Prevention Division is located near Pioneer Square at 220 3rd Avenue South on the second floor.

Scheduling
To make an appointment, email SFD_FMO_Certification@seattle.gov or call the Certification Unit at (206) 386-1444/386-1351. If you receive the recorded message, please follow the instructions. If you wish to receive a confirmation call, please request it in your message. **You may schedule up to two exams per test date.** All Exams are Closed book; Re-tests will not be administered on the same day as the original test; a separate appointment must be made. The test site is located at the Fire Prevention Division at 220 3rd Ave. S. on the second floor.

Certification Fees and Payment

<td>Testing</td>
</tr>
<tr>
<td>Renewal</td>
</tr>
<tr>
<td>Replacement Card</td>
</tr>
</tbody>
</table>

**Examinations - $444 per Exam**
The cost for each exam is $444 and may be paid by check (payable to the *City of Seattle*) or online at: [web7.seattle.gov/sfd/permits/](http://web7.seattle.gov/sfd/permits/). The fee is due at or before the time of the exam and applicants who have not paid will not be allowed to take the exam. If the fee is paid in advance, proof of payment must be brought with the applicant to the test. Advance payment must be associated to a specific testing customer and must be used within 60 days. The fee covers the initial test and if needed, one re-test. The re-test must be taken within 90 days of the original test date. If the re-test is taken after the 90-day period, a new certification exam fee of $444 will be required.

Once the candidate has successfully passing a certification examination and provided evidence of a current state of Washington certification (if required by state law for that certification type), the individual will be certified by the city of Seattle for one year. The certification may be renewed for two subsequent years at no cost to the card holder. Testing and payment are required every three years.

**Annual Renewals - No Charge**
Certificates will expire one year from the date of test. Card holders may renew their certification for two additional years at no cost by filling out and submitting the Renewal Application for Fire and Life Safety Certification annually. Certificate holders will need to remain familiar with the current fire code and national standards outlined in the SFD Certification Packet at: [www.seattle.gov/fire/business-services/certification-testing](http://www.seattle.gov/fire/business-services/certification-testing). It is the responsibility of certificate holders to keep their certificate up to date each year. It is a criminal law violation to perform any of the work regulated by Seattle Fire Department Administrative Rule 9.01 without a valid certificate.
Replacement Cards - $60 per Card
A $60 fee will be assessed for each lost or stolen certification card that is replaced. The fee can be paid by check (payable to the City of Seattle) or, if you wish to use a credit card for a replacement card, please call us at (206) 386-1450 or make payment in person in our office. Due to information that needs to be validated for issuing replacement cards, we are unable to accept online payments for this service.

Testing Dates and Times
Certification tests are administered as follows:

Every Monday and Wednesday, 2:00 p.m.
Every Tuesday, 7:30 a.m.

Tests are not administered on City holidays. Test takers may take two test and have one hour per test to complete the test.

Testing Location
Tests are administered at the Seattle Fire Prevention Division, 220 Third Avenue South, in Seattle near Pioneer Square. The Fire Prevention Division is on the second floor, above the Foster White Art Gallery.

Identification
Applicants must present picture identification at the test site prior to being issued an exam. Applicants who fail to do so will not be permitted to take the scheduled exam.

State Certification Requirements
Please note that a Seattle certification is not a substitute for any certification the state may require. For example, any employee performing inspection and testing on wet and dry pipe fire protection sprinkler systems must also hold a current Washington State Certification of Competency. Any employee performing inspection, testing, maintenance, and programing of fire alarm systems not defined as “electrical construction trade” must also hold a NICET II certification in either fire alarm systems or inspection and testing of fire alarm systems or hold the ESA/NTS Certified Fire Alarm Technician Level II certificate. Any employee performing installation, inspection, testing, and maintenance on pre-engineered kitchen fire-extinguishing systems, engineered fire suppression systems, and pre-engineered industrial fire-extinguishing systems must also hold the corresponding ICC/NAFED certification.

Pre-reading
Before you acquire study materials and study you should first read Administrative Rule 9.01 of the Seattle Fire Code. Administrative Rule 9.01 of the Seattle Fire Code contains in-depth information on the certification program, including a list of persons and agencies exempted from the program. All Seattle Fire Department Administrative Rules can also be viewed online at: www.seattle.gov/fire/business-services/fire-code-and-fire-safety-documents.
General Reference Materials
The following list provides descriptions of the reference materials from which certification test questions are derived. Information about locating the reference materials is also provided. Specific reference material for each certificate type can be found below in the bibliography section of this packet.

2018 Seattle Fire Code
This is a locally amended version of Washington State’s amended version of the 2018 International Fire Code. It is available for viewing online at www.seattle.gov/sdci/codes/codes-we-enforce-(a-z)/fire-code (or through links from the Seattle Fire Department web site) and may be purchased at both the Seattle Fire Department and the Seattle Department of Construction and Inspections (SDCI). For hard copies of the Seattle codes, contact SDCI’s Public Resource Center. The 2018 Seattle Fire Code may also be purchased over the counter at the Seattle Fire Prevention Division, 220 3rd Avenue South, Floor 2, weekdays from 8 a.m. to 4:30 p.m. The price is $80. Seattle code books may also be purchased on line from the International Code Council (ICC).

2018 Seattle Building Code
This is a locally amended version of the 2018 International Building Code. It is available for viewing online at: www.seattle.gov/sdci/codes/codes-we-enforce-(a-z)/building-code and may be purchased from SDCI. For hard copies of the Seattle codes, contact SDCI’s Public Resource Center at (206) 684-8467, 5th Avenue, Floor 20, Seattle.

2020 Seattle Electrical Code
This is a locally amended version of the 2020 National Electrical Code, published by the National Fire Protection Association (www.nfpa.org or 1-800-344-3555). To view the National Electrical Code and related Seattle amendments online, see: www.seattle.gov/sdci/codes/codes-we-enforce-(a-z)/electrical-code. For more information on obtaining paper copies of the local amendments, contact SDCI at (206) 684-8467. Copies of the above codes may also be available from local book retailers.

Seattle Fire Department – Administrative Rules

Seattle Fire Department – Client Assistance Memoranda (CAMs)
SFD CAMs are available on the web at: www.seattle.gov/fire/business-services/fire-code-and-fire-safety-documents and can also be obtained from the Certification Unit by email or U.S. mail by calling (206) 386-1351.

Seattle Department of Construction and Inspections – Tips
SDCI Tips are available on the web at: web6.seattle.gov/DPD/CAMS/CamList.aspx and at the SDCI Public Resource Center, (206) 684-8467, 700 Fifth Avenue, Floor 20, Seattle.
Seattle Department of Construction and Inspections – Director’s Rules
Director’s Rules can be obtained from the Certification Unit by email or U.S. mail by calling (206) 386-1351. Director’s Rules are also available on the web at: http://web6.seattle.gov/dpd/dirrulesviewer/default.aspx and from the Department of Construction and Inspections Public Resource Center, (206) 684-8467, 700 5th Avenue, Floor 20, Seattle.

National Fire Protection Association Standards
NFPA Standards can be viewed online and/or purchased through their website www.nfpa.org, or by calling the NFPA at 1(800) 344-3555. Copies may also be available from local book retailers.
