

Lake City Court P-Patch Pop-Up Summary

On Wednesday, August 7th 2019, PACE Coordinator presented a PACE Pop-Up workshop to 6 P-Patch gardeners at the Lake City Court P-Patch. It was held at the Broadview Library. The workshop included information and activities about the basics of how the City works, important access points to the City such as the Find It, Fix It App, and debriefed City resources for renters. 3 Seattle Renters' Commission members attended the workshop, and participated in a listening session about the issues the P-Patchers were facing as renters. The SRC members were able to give advice and provide additional resources around self-advocacy for renters rights, and the workshop participants appreciated being able to connect with them. The SRC members were excited about the collaboration, and are interested in participating in more Pop-Ups in the future.
