# CHAPTER 35
## REFERENCED STANDARDS

This chapter lists the standards that are referenced in various sections of this document. The standards are listed herein by the promulgating agency of the standard, the standard identification, the effective date and title, and the section or sections of this document that reference the standard. The application of the referenced standards shall be as specified in Section 102.4.

A792/A792M—10 Specification for Steel Sheet, 55% Aluminum-Zinc Alloy-coated
by the Hot-dip Process .................................................................................. Table 1507.4.3(1), Table 1507.4.3(2)
A875/A875M—13 Standard Specification for Stee1 Sheet Zinc-5 percent,
Aluminum Alloy-coated by the Hot-dip Process .............................................. Table 1507.4.3(2)
A924/A924M—13 Standard Specification for General Requirements for Steel
Sheet, Metallic-coated by the Hot-dip Process ............................................... Table 1507.4.3(1)
B42—10 Specification for Seamless Copper Pipe, Standard Sizes .................. 909.13.1
B43—09 Specification for Seamless Brass Pipe, Standard Sizes ................... 909.13.1
B68—11 Specification for Seamless Copper Tube, Bright Annealed (Metric) .... 909.13.1
B88—09 Specification for Seamless Copper Water Tube ............................... 909.13.1
B101—12 Specification for Lead-coated Copper Sheet and Strip
for Building Construction ............................................................................. 1404.5.3, Table 1507.2.9.2, Table 1507.4.3(1)
B209—10 Specification for Aluminum and Aluminum Alloy Steel and Plate ... Table 1507.4.3(1)
B251—10 Specification for General Requirements for Wrought Seamless
Copper and Copper-alkoy Tube ..................................................................... 909.13.1
B280—08 Specification for Seamless Copper Tube for Air Conditioning
and Refrigeration Field Service .................................................................. 909.13.1
B370—12 Specification for Copper Sheet and Strip for
Building Construction .................................................................................. 1404.5.2, Table 1507.2.9.2, Table 1507.4.3(1)
Deposited on Iron and Steel Strip for Building Construction ................. 2304.10.5.1, 2304.10.5.3
C5—10 Specification for Quicklime for Structural Purposes .......................... Table 2507.2
C22/C22M—00(2010) Specification for Gypsum ........................................... Table 2506.2
C27—98(2008) Specification for Classification of Fireclay and High-alumina Refractory Brick 2111.6
C28/C28M—10 Specification for Gypsum Plasters ........................................ Table 2507.2
C31/C31M—12 Practice for Making and Curing Concrete Test Specimens in the Field Table 1705.3
C33/C33M—13 Specification for Concrete Aggregates .................................. 722.3.1.4, 722.4.1.1.3
C55—2011 Specification for Concrete Building Brick ..................................... Table 2507.2
C59/C59M—00(2011) Specification for Gypsum Casting Plaster and Molding Plaster Table 2507.2
C61/C61M—00(2011) Specification for Gypsum Keene’s Cement ................. Table 2507.2
C62—13 Standard Specification for Building Brick
(Solid Masonry Units Made from Clay or Shale) ........................................ 1807.1.6.3
C67—13 Test Methods of Sampling and Testing Brick and Structural Clay Tile 721.4.1.1.1, 2109.3.1.1
C73—10 Specification for Calcium Silicate Brick (Sand-lime Brick) .......... Table 722.3.2, 1807.1.6.3
C90—13 Specification for Loadbearing Concrete Masonry Units .................. Table 2507.2
C91—12 Specification for Masonry Cement .................................................. Table 2507.2
C94/C94M—13 Specification for Ready-Mixed Concrete .............................. 110.3.1
C140—13 Test Method Sampling and Testing Concrete Masonry Units and Related Units 722.3.1.2
C150—12 Specification for Portland Cement .................................................. 1903.1, Table 2507.2
C172/C172M—10 Practice for Sampling Freshly Mixed Concrete ............... Table 1705.3
C199—84 (2011) Test Method for Pier Test for Refractory Mortars ............ 2111.6, 2111.9, 2113.12
C206—13 Specification for Finishing Hydrated Lime ................................... Table 2507.2
C208—12 Specification for Cellulosic Fiber Insulating Board ....................... Table 1508.2, 2303.1.6
C216—13 Specification for Facing Brick (Solid Masonry Units Made from Clay or Shale) 1807.1.6.3
C270—12a Specification for Mortar for Unit Masonry .................................. 2103.3.2.4
C315—07(2011) Specification for Clay Flue Liners and Chimney Pots ........ 2111.9, 2113.11.1, Table 2113.16(1)
C317/C317M—00(2010) Specification for Gypsum Concrete ......................... 2514.1
C330/C330M—09 Specification for Lightweight Aggregates for Structural Concrete 202
C331/C331M—10 Specification for Lightweight Aggregates for Concrete Masonry Units 722.3.1.4, 722.4.1.1.3
C406/C406M—10 Specification for Roofing Slate ........................................ 1507.7.5
C473—12 Test Method for Physical Testing of Gypsum Panel Products ....... Table 2506.2
C474—13 Test Methods for Joint Treatment Materials for Gypsum Board Construction .......................... Table 2506.2
C475/C475M—12 Specification for Joint Compound and Joint Tape for Finishing Gypsum Board Table 2506.2
C514—04(2009)e1 Specification for Nails for the Application of Gypsum Board Table 721.1(2), Table 721.1(3),
Table 2306.7, Table 2506.2
C516—08 Specifications for Vermiculite Loose Fill Thermal Insulation 722.3.1.4, 722.4.1.1.3
C547—12 Specification for Mineral Fiber Pipe Insulation ............................. Table 1508.2
C549—06(2012) Specification for Perlite Loose Fill Insulation ................... 722.3.1.4, 722.4.1.1.3
C552—12b Standard Specification for Cellular Glass Thermal Insulation .... Table 1508.2
C557—03(2009)e01 Standard Specification for Adhesives for Fastening Gypsum Wallboard to Wood Framing ................................. 2506.2
C578—12b Standard Specification for Rigid, Cellular Polystyrene Thermal Insulation Table 1508.2, 2603.10,
Table 2603.12.1, Table 2603.12.2
C587—04(2009) Specification for Gypsum Veneer Plaster ................................................................. Table 2507.2
C595/C595—13 Specification for Blended Hydraulic Cements .......................................................... 1903.1, Table 2507.2
C631—09 Specification for Bonding Compounds for Interior Gypsum Plastering .......................... Table 2507.2
C635/C635M—13 Specification for the Manufacture, Performance and Testing of Metal Suspension Systems for Acoustical Tile and Lay-in Panel Ceilings ........................................... 808.1.1.1, 2506.2.1
C636/C636M—08 Practice for Installation of Metal Ceiling Suspension Systems for Acoustical Tile and Lay-in Panels ................................................................................. 808.1.1.1
C645—13 Specification for Nonstructural Steel Framing Members ...................................................... Table 2506.2, Table 2507.2
C652—13 Specification for Hollow Brick (Hollow Masonry Units Made from Clay or Shale) ........ 1807.1.6.3
C726—12 Standard Specification for Mineral Roof Insulation Board .................................................. Table 1508.2
C728—05(2013) Standard Specification for Perlite Thermal Insulation Board .................................. Table 1508.2
C744—11 Specification for Preface Concrete and Calcium Silicate Masonry Units .......................... Table 722.3.2
C754—11 Specification for Installation of Steel Framing Members to Receive Screw-attached Gypsum Panel Products ................................................................. Table 2508.1, Table 2511.1.1
C836/C836M—12 Specification for High-solids Content, Cold Liquid-applied Elastomeric Waterproofing Membrane for Use with Separate Wearing Course ............. 1507.15.2
C840—11 Specification for Application and Finishing of Gypsum Board ......................................... Table 2508.1, 2509.2
C841—03(2008)/E1 Specification for Installation of Interior Lathing and Furring .......................... Table 2511.1.1
C842—05(2010)/E1 Specification for Application of Interior Gypsum Plaster .................................. Table 2511.1.1, 2511.3, 2511.4
C843—99 (2012) Specification for Application of Gypsum Veneer Plaster ........................................ Table 2511.1.1
C844—04(2010) Specification for Application of Gypsum Base to Receive Gypsum Veneer Plaster ................................................................. Table 2508.1
C847—12 Specification for Metal Lath ................................................................................................. Table 2507.2
C887—05(2010) Specification for Packaged, Dry Combined Materials for Surface Bonding Mortar .................................................................................. 2103.2.2
C920—11 Standard for Specification for Elastomeric Joint Sealants .................................................. Table 2506.2
C926—13 Specification for Application of Portland Cement-based Plaster ..................................... Table 2511.1.1, 2511.3, 2512.1, 2512.2, 2512.6, 2512.8.2, 2512.9, 2513.7, 2512.1.2, 2512.2, 2512.6, 2512.8.2, 2512.9, 2513.7
C932—06(2013) Specification for Surface-applied Bonding Compounds for Exterior Plastering .......... Table 2507.2
C933—13 Specification for Welded Wire Lath .................................................................................. Table 2507.2
C946—10 Specification for Construction of Dry-stacked, Surface-bonded Walls .............................. 2103.2.2, 2109.2.2
C954—11 Specification for Steel Drill Screws for the Application of Gypsum Panel Products or Metal Plaster Bases to Steel Studs from 0.033 inch (0.84 mm) to 0.112 inch (2.84 mm) in Thickness .................................................. Table 2506.2, Table 2507.2
C955—11C Standard Specification for Load-bearing Transverse and Axial Steel Studs, Runners Tracks, and Bracing or Bridging, for Screw Application of Gypsum Panel Products and Metal Plaster Bases ......................................................... Table 2506.2, Table 2507.2
C957—10 Specification for High-solids Content, Cold Liquid-applied Elastomeric Waterproofing Membrane with Integral Wearing Surface ........................................ 1507.15.2
C1002—07 Specification for Steel Self-piercing Tapping Screws for the Application of Gypsum Panel Products or Metal Plaster Bases to Wood Studs or Steel Studs ........................................ 2506.2, Table 2507.2
C1007—11a Specification for Installation of Load Bearing (Transverse and Axial) Steel Studs and Related Accessories ................................................................. Table 2508.1, Table 2511.1.1
C1032—06(2011) Specification for Woven Wire Plaster Base ................................................................. Table 2507.2
C1047—10A Specification for Accessories for Gypsum Wallboard and Gypsum Veneer Base .......... Table 2506.2, Table 2507.2
C1063—12D Specification for Installation of Lathing and Furring to Receive Interior and Exterior Portland Cement-based Plaster ............................................................. 2109.3.4.8, 2510.3, Table 2511.1.1, 2512.1.1
C1088—13 Specification for Thin Veneer Brick Units Made from Clay or Shale ................................. Table 721.1(2)
C1157/C1157M—11 Standard Performance Specification for Hydraulic Cement ............................. 1903.1, Table 2507.2
C1167—11 Specification for Clay Roof Tiles .................................................................................... 1507.3.4
C1177/C1177M—08 Specification for Glass Mat Gypsum Substrate for Use as Sheathing ................ Table 2506.2
C1178/C1178M—11 Specification for Coated Mat Water-resistant Gypsum Backing Panel ............ Table 2506.2, Table 2509.2
C1186—08(2012) Specification for Flat Fiber Cement Sheets ............................................................ 1404.10, 1405.16.1, 1405.16.2
C1261—10 Specification for Firebrick Box for Residential Fireplaces ............................................. 2111.6, 2111.9
C1278/C1278M—07a(2011) Specification for Fiber-reinforced Gypsum Panels .............................. Table 2508.2, Table 2506.2
C1280—13 Specification for Application of Exterior Gypsum Panel Products for Use as Sheathing ...... Table 2508.1, 2508.2
C1283—11 Practice for Installing Clay Flue Lining ............................................................................ 2113.9.1, 2113.12
C1289—13E1 Standard Specification for Faced Rigid Cellular Polyisocyanurate Thermal Insulation Board .................................................................................. 2603.0, Table 2603.12.1, Table 2603.12.2
ASTM—continued

C1313/C1313M—12 Standard Specification for Sheet Radiant Barriers for Building Construction Applications 1509.4
C1325—08b Standard Specification for Nonasbestos Fiber-mat Reinforced Cement Backer Units Table 2509.2
C1328/C1328M—12 Specification for Plastic (Stucco Cement) Table 2507.2
C1364—10B Standard Specification for Architectural Cast Stone 2103.1
C1386—07 Specification for Precast Autoclaved Aerated Concrete (AAC) Wall Construction Units 202
C1396M/C1396M—13 Specification for Gypsum Board Figure 722.5.1(2), Figure 722.5.1(3)
C1492—03(2009) Standard Specification for Concrete Roof Tile 1507.3.5
C1600/C 1600M—11 Standard Specification for Rapid Hardening Hydraulic Cement Table 2507.2
C1629/C1629M—06(2011) Standard Classification for Abuse-resistant Nondecorated Interior Gypsum Panel Products and Fiber-reinforced Cement Panels 403.2.3.1, 403.2.3.2, 403.2.3.4
D25—12 Specification for Round Timber Piles 1810.3.2.4, 2303.1.12
D41—05 Specification for Asphalt Primer Used in Roofing, Dampproofing and Waterproofing Table 1507.10.2
D43—00 (2006) Specification for Coal Tar Primer Used in Roofing, Dampproofing and Waterproofing Table 1507.10.2
D56—05(2010) Test Method for Flash Point By Tag Closed Tester 202
D86—2012 Test Method for Distillation of Petroleum Products at Atmospheric Pressure 202
D93—2012 Test Method for Flash Point By Pensky-Martens Closed Cup Tester 202
D225—07 Specification for Asphalt Shingles (Organic Felt) Surfaced with Mineral Granules 1507.2.5
D226/D226M—09 Specification for Asphalt-saturated Organic Felt Used in Roofing and Waterproofing Table 1507.10.2, 1507.15.2

D227/D227M— 03(2011)E1 Specification for Coal-tar-saturated Organic Felt Used in Roofing and Waterproofing Table 1507.10.2
D312—00 (2006) Specification for Asphalt Used in Roofing Table 1507.10.2
D422—63 (2007) Test Method for Particle-size Analysis of Soils 1803.5.3
D448—08 Standard Classification for Sizes of Aggregate for Road and Bridge Construction 1507.12.3, 1507.13.3
D450—07 Specification for Coal-tar Pitch Used in Roofing, Dampproofing and Waterproofing Table 1507.10.2
D635—10 Test Method for Rate of Burning and/or Extent and Time of Burning of Plastics in a Horizontal Position 2606.4
D1143/D1143M—07e1 Test Method for Piles Under Static Axial Compressive Load 1810.3.3.1.2
D1227—95 (2007) Specification for Emulsified Asphalt Used as a Protective Coating for Roofing Table 1507.10.2, 1507.15.2
D1557—12 Test Method for Laboratory Compaction Characteristics of Soil Using Modified Effort (56,000 ft-lb/ft^3 (2,700 KN m/m^3)) 1705.6, 1804.5
D1863/D1863M— 05(2011)E1 Specification for Mineral Aggregate Used on Built-up Roofs Table 1507.10.2
D1929—12 Test Method for Determining Ignition Temperature of Plastics 402.6.4.4, 406.7.2, 1407.11.2.1, 1407.11.3.3, 1407.11.4.2, 2606.4
D1970/D1970M—2013 Specification for Self-adhering Polymer Modified Bituminous Sheet Materials Used as Steep Roof Underlayment for Ice Dam Protection Table 1507.2.4, 1502.2.8.1, 1507.2.9.2, 1507.3.3.3

1507.3.9, 1507.4.5, 1507.5.3.1, 1507.5.7, 1507.6.3.1, 1507.7.3.1, 1507.8.3.1, 1507.8.8, 1507.9.3.1, 1507.9.9, 1507.17.4.1
D2178—04 Specification for Asphalt Glass Felt Used in Roofing and Waterproofing, . Table 1507.10.2
D2487—2011 Practice for Classification of Soils for Engineering Purposes (Unified Soil Classification System) Table 1610.1, 1803.5.1
D2626/D2626M— 04(2012)E1 Specification for Asphalt Saturated and Coated Organic Felt Base Sheet Used in Roofing Table 1507.3.3
D2627/ Table 1507.10.2
D2822/ Table 1507.10.2
D2822M-05(2011)E1 Specification for Asphalt Roof Cement, Asbestos Containing Table 1507.10.2
D2823/D2823M— 05(2011)E1 Specification for Asphalt Roof Coatings, Asbestos Containing Table 1507.10.2
D2824—06(2012)E1 Standard Specification for Aluminum-Pigmented Asphalt Roof Coating, Nonfibered, Asbestos Fibered and Fibered without Asbestos Table 1507.10.2
D2843—10 Test for Density of Smoke from the Burning or Decomposition of Plastics 2606.4
D2898—10 Test Methods for Accelerated Weathering of Fire-retardant-treated Wood for Fire Testing 1505.1.1, 2303.2.4, 2303.2.6
D3019—08 Specification for Lap Cement Used with Asphalt Roll Roofing, Nonfibered, Asbestos Fibered and Nonasbestos Fibered Table 1507.10.2
D3161/D3161M—13 Test Method for a Wind Resistance of Asphalt Shingles (Fan Induced Method) Table 1504.1.1, Table 1504.1.1, 1507.17.8
**ASTM—continued**

D3201—2013 Test Method for Hygroscopic Properties of Fire-retardant-treated Wood and Wood-based Products. .......................................................... 2303.2.7

D3462/D3462M—10A Specification for Asphalt Shingles Made from Glass Felt and Surfaced with Mineral Granules ........................................... 1507.2.5

D3468—99 (2006) e01 Specification for Liquid-applied Neoprene and Chlorosulfonated Polyethylene Used in Roofing and Waterproofing .................. 1507.15.2

D3679—11 Specification for Rigid Poly (Vinyl Chloride) (PVC) Siding .......................................................... 1404.9, 1405.14

D3689—2013E1 Test Methods for Deep Foundations Under Static Axial Tensile Load .......................................................... 1810.3.3.1.5

D3737—2012 Practice for Establishing Allowable Properties for Structural Glued Laminated Timber (Glulam) .......................................................... 2303.1.3

D3909/ D3909M—97b (2012)e1 Specification for Asphalt Roll Roofing (Glass Felt) Surfaced with Mineral Granules ........................................... 1507.2.9.2, 1507.6.5, Table 1507.10.2

D3957—09 Standard Practices for Establishing Stress Grades for Structural Members Used in Log Buildings .......................................................... 2303.1.11

D4022/D4022M— Specification for Coal Tar Roof Cement, Asbestos Containing .......................................................... Table 1507.10.2

D4272—09 Test Method for Total Energy Impact of Plastic Films by Dart Drop .......................................................... 1504.7

D4318—10 Test Methods for Liquid Limit, Plastic Limit and Plasticity Index of Soils .......................................................... 1803.5.3

D4434/D4434M—12 Specification for Poly (Vinyl Chloride) Sheet Roofing .......................................................... 1507.13.2

D4479/D4479M—07(2012)E1 Specification for Asphalt Roof Coatings-Asbestos-free .......................................................... Table 1507.10.2

D4586/D4586M—07(2012)E1 Specification for Asphalt Roof Cement-Asbestos-free .......................................................... Table 1507.10.2

D4601/D4601M—04(2012)E1 Specification for Asphalt-coated Glass Fiber Base Sheet Used in Roofing .......................................................... Table 1507.10.2

D4637/D4637M—13 Specification for EPDM Sheet Used in Single-ply Roof Membrane .......................................................... 1507.12.2

D4829—11 Test Method for Expansion Index of Soils .......................................................... 1803.5.3

D4869/D4869M—05(2011)e01 Specification for Asphalt-saturated (Organic Felt) Underlayment Used in Steep Slope Roofing .......................................................... 1507.10.2

D4987/D4987M—01(2009) Specification for Asphalt-coated Glass Fiber Venting Base Sheet Used in Roofing .......................................................... Table 1507.10.2

D4945—12 Test Method for High-strain Dynamic Testing of Piles .......................................................... 1810.3.3.1.2

D4990—97a (2005) e01 Specification for Coal Tar Glass Felt Used in Roofing and Waterproofing .......................................................... Table 1507.10.2

D5019M—97b (2012)e1 Specification for Emulsified Asphalt Adhesive for Adhering Roof Insulation .......................................................... 1507.10.2

D5055—13 Specification for Establishing and Monitoring Structural Capacities of Prefabricated Wood I-joists .......................................................... 2303.1.2

D5456—12 Specification for Evaluation of Structural Composite Lumber Products .......................................................... 2303.1.10

D5516—09 Test Method of Evaluating the Flexural Properties of Fire-retardant-treated Softwood Plywood Exposed to the Elevated Temperatures .......................................................... 2303.2.5.1

D5649/D5643M—06(2012)E1 Specification for Coal Tar Roof Cement, Asbestos-free .......................................................... Table 1507.10.2

D5664—10 Test Methods for Evaluating the Effects of Fire-retardant Treatment and Elevated Temperatures on Strength Properties of Fire-retardant-treated Lumber .......................................................... 2303.2.5.2

D5665—99a (2006) Specification for Thermoplastic Fabrics Used in Cold-applied Roofing and Waterproofing .......................................................... Table 1507.10.2

D5726—98 (2005) Specification for Thermoplastic Fabrics Used in Hot-applied Roofing and Waterproofing .......................................................... Table 1507.10.2

D6083—05e01 Specification for Liquid Applied Acrylic Coating Used in Roofing .......................................................... Table 1507.10.2, Table 1507.14.3, 1507.15.2

D6223/D6223M—02(2011)E1 Specification for Atactic Polypropylene (APP) Modified Bituminous Sheet Materials Using a Combination of Polyester and Glass Fiber Reinforcements .......................................................... 1507.11.2
ASTM—continued

D6298—05e1 Specification for Fiberglass Reinforced Styrene-butadiene-styrene (SBS) Modified Bituminous Sheets with a Factory Applied Metal Surface ........................................ 1507.11.2

D6305—08 Practice for Calculating Bending Strength Design Adjustment Factors for Fire-retardant-treated Plywood Roof Sheathing ........................................ 2303.2.5.1

D6380—03 (2009) Standard Specification for Asphalt Roll Roofing (Organic) Felt ........................................ 1507.2.9.2, 1507.3.3, 1507.6.5

D6694—08 Standard Specification for Liquid-applied Silicone Coating Used in Spray Polyurethane Foam Roofing Systems ........................................ Table 1507.14.3, 1507.15.2

D6754/D6745M—10 Standard Specification for Ketone Ethylene Ester Based Sheet Roofing ........................................ 1507.13.2

D6757—2013 Standard Specification for Underlayment for Use with Steep Slope Roofing ........................................ 1507.2.3, 1507.17.3, 1507.17.4.1

D6841—08 Standard Practice for Calculating Design Value Treatment Adjustment Factors for Fire-retardant-treated Lumber ........................................ 2303.2.5.2

D6878/D6878M—11a Standard Specification for Thermoplastic Polyolefin Based Sheet Roofing ........................................ 1507.13.2

D6947—07 Standard Specification for Liquid Applied Moisture Cured Polyurethane Coating Used in Spray Polyurethane Foam Roofing System ........................................ Table 1507.14.3, 1507.15.2

D7032—10a Standard Specification for Establishing Performance Ratings for Wood, Plastic Composite Deck Boards and Guardrail Systems (Guards or Rails) ........................................ 2612.2.1, 2612.4, 2612.5.1

D7147—05 Specification for Testing and Establishing Allowable Loads of Joist Hangers ........................................ 2303.5, 2304.10.3

D7254—07 Standard Specification for polypropylene (PP) siding ........................................ 1404.12

D7655—12 Standard Classification for Size of Aggregate Used as Ballast for Roof Membrane Systems ........................................ 1507.12.3, 1507.13.3

E84—2013A Test Methods for Surface Burning Characteristics of Building Materials ........................................ 202, 402.6.4.4, 406.7.2, 703.5.2, 720.1, 720.4, 803.1.1, 803.1.4, 803.10, 803.11, 806.7, 1409.12.1, 1409.12.2, 1409.10.1, 1510.6.2, 1510.6.3, 2303.2, 2603.1, 2603.4.1.13, 2606.3.5.4, 2603.7.1, 2603.7.2, 2603.7.3, 2603.24.4, 2606.4, 2612.3, 2614.3, 3105.4

E90—09 Test Method for Laboratory Measurement of Airborne Sound Transmission Loss of Building Partitions and Elements ........................................ 1207.2, 1207.2.1

E108—2011 Test Methods for Fire Tests of Roof Coverings ........................................ 1505.1, 2603.6, 2610.2, 2610.3

E119—2012A Standard Test Methods for Fire Tests of Building Construction and Materials ........................................ 703.2, 703.2.1, 703.2.3, 703.3, 703.4, 703.6, 704.12, 705.7, 705.8.5, 711.3.2, 714.3.1, 714.4.1, 715.1, 716.2, Table 716.3, 716.5.6, 716.5.8.1.1, Table 716.6, 716.6.7.1, 717.5.2, 717.5.3, 717.6.1, 716.6.2.1, Table 721.1(1), 1409.10.2, 2103.1, 2603.5.1

E136—2012 Test Method for Behavior of Materials in a Vertical Tube Furnace at 750°C ........................................ 703.5.1

E283—04 Standard Test Method for Determining Rate of Air Leakage Through Exterior Windows Curtains, and Doors Under Specified Pressure Difference Across the Specimen ........................................ 202

E300—02 Test Method for Structural Performance of Exterior Windows, Curtain Walls and Doors by Uniform Static Air Pressure Difference ........................................ 1409.10.2, 1709.5.2

E330—02 (2009) Test Method for Water Penetration of Exterior Windows, Skylights, Doors and Curtain Walls by Uniform Static Air Pressure Difference ........................................ 1409.2

E331—00 (2009) Test Method for Fire Tests of Roof Coverings ........................................ 202, 714.3.1.2, 714.3.2, 7143.1.1.2

E492—09 Test Method for Laboratory Measurement of Impact Sound Transmission Through Floor-ceiling Assemblies Using the Tapping Machine ........................................ 1207.3

E681—2009 Test Methods for Concentration Limits of Flammability of Chemical Vapors and Gases ........................................ 202

E814—2013 Test Method for Fire Tests of Through-penetration Firestops ........................................ 202, 714.3.1.2, 7143.4.1.1.2

E970—2010 Test Method for Critical Radiant Flux of Exposed Attic Floor Insulation Using a Radiant Heat Energy Source ........................................ 720.3.1

E1300—12EA1 Practice for Determining Load Resistance of Glass in Buildings ........................................ 2404.1.4, 2404.2, 2404.3.1, 2404.3.2, 2404.3.3, 2404.3.4, 2404.3.5

E1592—05(2012) Test Method for Structural Performance of Sheet Metal Roof and Siding Systems by Uniform Static Air Pressure Difference ........................................ 1504.3.2

E1886—05 Test Method for Performance of Exterior Windows, Curtain Walls, Doors and Storm Shutters Impacted by Missiles and Exposed to Cyclic Pressure Differentials ........................................ 1609.1.2
